files. Designed to provide beginners in Arabic with maximum linguistic and cultural exposure in a short period (about 100 hours of contact time),

American-Arab interactions, notes on learner strategies for managing Arabic conversations with a limited amount of language, and grammar
explanations in clear, non-technical language. Although the main dialogue for each lesson is presented in Arabic script, transcriptions are used to
accelerate spoken performance. The FAST Course includes grammatical explanations, English-Arabic and Arabic-English glossaries, appendices
common idioms, courtesy expressions and other useful terms, instructor's notes, and drills aided and accompanied by the CD. Originally created for
diplomats, this is an expanded and enhanced edition of a work originally developed by the U.S. State Department as a six-week intensive, or
(Familiarization and Short-Term) course, and is easily adaptable for students in Middle East area studies. Travelers heading for posts in the Arab world
who quickly need to gain a basic ability to converse in day-to-day situations will find Formal Spoken Arabic FAST Course an invaluable companion.

Into the Wild Mar 14 2021 Krakauer's page-turning bestseller explores a famed missing person mystery while unraveling the larger riddles it holds: the profound pull of the American wilderness on our imagination; the allure of high-risk activities to young men of a certain cast of mind; the charged bond between fathers and sons. "Terrifying... Eloquent... A heart-rending drama of human yearning." —*New York Times* In April 1992, a young man from a well-to-do family hitchhiked to Alaska and walked alone into the wilderness north of Mt. McKinley. He had given \$25,000 in savings for charity, abandoned his car and most of his possessions, burned all the cash in his wallet, and invented a new life for himself. Four months later, a decomposed body was found by a moose hunter. How Christopher Johnson McCandless came to die is the unforgettable story of *Into the Wild*. Immediately after graduating from college in 1991, McCandless had roamed through the West and Southwest on a vision quest like those made by heroes Jack London and John Muir. In the Mojave Desert he abandoned his car, stripped it of its license plates, and burned all of his cash. He gave himself a new name, Alexander Supertramp, and, unencumbered by money and belongings, he would be free to wallow in the raw, unforgiving experiences that nature presented. Craving a blank spot on the map, McCandless simply threw the maps away. Leaving behind his desperate sister, he vanished into the wild. Jon Krakauer constructs a clarifying prism through which he reassembles the disquieting facts of McCandless's life. Admitting an interest that borders on obsession, he searches for the clues to the drives and desires that propelled McCandless. When McCandless's innocent mistakes turn out to be irreversible and fatal, he becomes the stuff of tabloid headlines and is dismissed for his naiveté, pretension, and hubris. He is said to have had a death wish but wanting to die is a very different thing from being compelled to look over the edge. Krakauer brings McCandless's uncompromising pilgrimage out of the shadows, and the peril, adversity, and renunciation sought by this enigmatic young man are illuminated with a rare understanding—and not an ounce of sentimentality. Mesmerizing, heartbreaking, *Into the Wild* is a tour de force. The luminosity of Jon Krakauer's storytelling blaze through every page.

The Life and Times of the Ant Oct 01 2022 Not mighty in size, but mighty in resourcefulness and industry, the ant has crawled the earth since prehistoric times. It has dwelt in rainforest tree trunks and acorns of oak trees, beneath logs, and under sidewalks. It has protected forests from insects, cleared weeds away from acacia trees, and by growing gardens has released important nutrients into the soil. Seed lifters, dirt diggers, and more, ants have the most advanced brain of all insects! So watch where you step, especially on a warm day: a small but mighty ant may be busy doing a Crime Story. **Born a Crime** Oct 09 2020 #1 NEW YORK TIMES BESTSELLER • More than one million copies sold! A "brilliant" (Lupita Nyong'o, *Time*), "poignant" (*Entertainment Weekly*), "soul-nourishing" (*USA Today*) memoir about coming of age during the twilight of apartheid "Noah's childhood stories are told with all the hilarity and intellect that characterizes his comedy, while illuminating a dark and brutal period in South Africa's history that must never be forgotten."—*Esquire* Winner of the Thurber Prize for American Humor and an NAACP Image Award • Named one of the best books of the year by *The New York Times*, *USA Today*, *San Francisco Chronicle*, *NPR*, *Esquire*, *Newsday*, and *Booklist* Trevor Noah's unlikely path from apartheid South Africa to the desk of *The Daily Show* began with a criminal act: his birth. Trevor was born to a white Swiss father and a black Xhosa mother at a time when such a union was punishable by five years in prison. Living proof of his parents' indiscretion, Trevor was kept mostly indoors for the earliest years of his life, bound by the extreme and often absurd measures his mother took to hide him from a government that could, and would, steal him away. Finally liberated by the end of South Africa's tyrannical white rule, Trevor and his mother set forth on a grand adventure, living freely and embracing the opportunities won by a centuries-long struggle. *Born a Crime* is the story of a mischievous young boy who grows into a restless young man as he struggles to find himself in a world where he was never supposed to exist. It is also the story of that young man's relationship with his fearless, rebellious, and fervently religious mother—his teammate, a woman determined to save her son from the cycle of poverty, violence, and abuse that would ultimately threaten her own life. The stories collected here are by turns hilarious, dramatic, and deeply affecting. Whether exposing his parents on caterpillars for dinner during hard times, being thrown from a moving car during an attempted kidnapping, or just trying to survive the life-or-death pitfalls of dating in high school, Trevor illuminates his curious world with an incisive wit and unflinching honesty. His stories weave together to form a moving and searingly funny portrait of a boy making his way through a damaged world in a dangerous time, armed only with a keen sense of humor and a mother's unconventional, unconditional love.

Math Lessons for a Living Education Level 1 Oct 21 2021 Have you ever noticed that we tend to compartmentalize when teaching our children? In real life, there aren't artificial barriers between "subjects." In driving a car, you see and read road signs, read maps, and count miles. It has become quite clear that there is an abundance of math curriculums available that are nothing but monotonous drill sheets dressed up in pretty colors. *Pretty Colors* is a living book. Content, story, and the ability to show math in real life make a living math book. **Math Level 1: Teach math lessons through the means of a life story** Provides a link for the downloadable answer key Has a scope and sequence that contains learning numbers 0 to 100, counting patterns, counting and addition, days of the week, and telling time. Math Lessons for a Living Education Lesson 39 2021 Teach math lessons through the creative means of a life story. Provide 36 weeks of instruction based on skill levels rather than grade levels. Guide students by the use of inexpensive manipulatives, including index cards, dried beans, and colored paper! We often tend to compartmentalize when teaching children. In real life, there aren't artificial barriers between "subjects." For example, when you are cooking or baking, you have to use the skills of reading, logical thinking, and measuring, just to name a few. In driving a car, you see speed limit signs, read maps, and count miles. So why do we say to children, "This is math, this is language, this is about science and nature, and this is history"? The most natural and effective means to teach children is through life examples. Content, story, and the ability to show math in real life are a living math book!
