Istanbul Jan 29 2020 From the Nobel Prize winner and acclaimed author of *My Name is Red* comes a portrait of Istanbul by its foremost writer, revealing the melancholy that comes of living amid the ruins of a lost empire. "Delightful,

profound, marvelously origina.... Pamuk tells the story of the city through the eyes of memory." —The Washington Post Book World A shimmering evocation, by turns intimate and panoramic, of one of the world's great cities, by its foremost writer. Orhan Pamuk was born in Istanbul and still lives in the family apartment building where his mother first held him in her arms. His portrait of his city is thus also a self-portrait, refracted by memory and the melancholy—or hüzün—that all Istanbulers share. With cinematic fluidity, Pamuk moves from his glamorous, unhappy parents to the gorgeous, decrepit mansions overlooking the Bosphorus; from the dawning of his self-consciousness to the writers and painters—both Turkish and foreign—who would shape his consciousness of his city. Like Joyce's Dublin and Borges' Buenos Aires, Pamuk's Istanbul is a triumphant encounter of place and sensibility, beautifully written and immensely moving.

Memory Sep 26 2019 Jordi Fernández here offers a philosophical investigation of

memory, one which engages with memory's philosophically puzzling characteristics in order to clarify what memory is. Memories interact with mental states of other types in a particular way, and they also have associated feelings that these other mental states lack. They are special in terms of their representational capacity too, since one can have memories of objective events as well as memories of one's own past experiences. Finally, memories are epistemically unique, in that beliefs formed on the basis of memories are protected from certain errors of misidentification, and are justified in a way which does not rely on any cognitive capacity other than memory. To explain these unique features, Fernández proposes that memories have a particular functional role which involves past perceptual experiences and beliefs about the past. He suggests that memories have a particular content as well, namely that they represent themselves as having a certain causal origin. Fernández then explains the feelings associated with our memories as the experience of some of the things that our memories represent, things such as our own past experiences, or the fact that memories originate in those experiences. He also accounts for the special justification for belief afforded by our memories in terms of the content that memories have. The resulting picture is a unified account of several philosophically interesting aspects of memory, one that will appeal to philosophers of mind, metaphysicians, and epistemologists alike.

Red Shadows: Volume 12 Jun 27 2022 China's convulsive Cultural Revolution was conceived in 1966 as a 'great revolution that would touch the people to their very souls'. How are we to assess its impact fifty years on? In this volume, leading social and political scientists, historians and anthropologists examine the long-lasting consequences of the political, social, economic and cultural upheaval unleashed by Mao Zedong. Contributions from authors working within and outside the People's Republic of China consider the impact of this tumultuous mass movement from perspectives as diverse as market-based economic reform, clothing and fashion, the grassroots movements of late 1960s across the globe and the so-called 'lost generation' of sent-down youth. We find that collective and personal memories of the Cultural Revolution and its enduring institutional and social legacies continue to exert a profound effect on China and the Chinese people today.

Red, White & Royal Blue Jun 23 2019 * Instant NEW YORK TIMES and USA TODAY bestseller * * GOODREADS CHOICE AWARD WINNER for BEST DEBUT and BEST ROMANCE of 2019 * * BEST BOOK OF THE YEAR* for VOGUE, NPR, VANITY FAIR, and more! * What happens when America's First Son falls in love with the Prince of Wales? When his mother became President, Alex Claremont-Diaz was promptly cast as the American equivalent of a young royal. Handsome, charismatic, genius—his image is pure millennial-marketing gold for the White House. There's only one problem: Alex has a beef with the actual prince, Henry, across the pond. And when the tabloids get hold of a photo involving an Alex-Henry altercation, U.S./British relations take a turn for the worse. Heads of family, state, and other handlers devise a plan for damage control: staging a truce between the two rivals. What at first begins as a fake, Instagramable friendship grows deeper, and more dangerous, than either Alex or Henry could have imagined. Soon Alex finds himself hurtling into a secret romance with a surprisingly unstuffy Henry that could derail the campaign and upend two nations and begs the question: Can love save the world after all? Where do we find the courage, and the power, to be the people we are meant to be? And how can we learn to let our true colors shine

through? Casey McQuiston's Red, White & Royal Blue proves: true love isn't always diplomatic. "I took this with me wherever I went and stole every second I had to read! Absorbing, hilarious, tender, sexy—this book had everything I crave. I'm jealous of all the readers out there who still get to experience Red, White & Royal Blue for the first time!" - Christina Lauren, New York Times bestselling author of The Unhoneymooners "Red, White & Royal Blue is outrageously fun. It is romantic, sexy, witty, and thrilling. I loved every second." - Taylor Jenkins Reid, New York Times bestselling author of Daisy Jones & The Six

Red Memories Feb 21 2022 We all go through life making decisions about our lives, but both Jonathan and Isabel had no insight on what was about to change. She just knew wherever Jonathan was, that is where she wanted to be. All of her life, she had a dream of loving the perfect man and maybe one day starting her own designer clothing company. But Isabel always put her dreams last. On the other hand, Jonathan loves Isabel, but his sordid past kept coming back to life no matter where he ran to. Even though he loved her dearly, he was a very demanding man, and his dreams always came first before her but at what expense? The exquisite Southern town of Fairhope, Alabama, was their new start, but it was also a place where their lives began to change. Isabel also had a secret but never in her life dreamed that she would find the missing link. Could they each put the past behind and learn to forgive and forget? Could their strong love handle the pressure of new intrusions?

Red World and White Apr 25 2022 In reminiscing about his early years on Minnesota's White Earth Reservation at the turn of the century, John Rogers reveals much about the life and customs of the Chippewas. He tells of food-gathering, fashioning bark canoes and wigwams, curing deerskin, playing games, and participating in sacred rituals. These customs were to be cast aside, however, when he was taken to a white school in an effort to assimilate him into white society. In the foreword to this new edition, Melissa L. Meyer places Roger's memoirs within the story of the White Earth Reservation.

Memories in Red Jun 15 2021 "RED was not my favorite color for the most of my life. Unconsciously I avoided it in my clothes and in my art. For me, growing up in Russia, RED had the direct association with the state. RED was a weapon. It was the communist propaganda in action: the color of the state flags on the mandatory May-Day parades we had to attend since the early childhood, the color of the banners crisscrossing the streets and snaking around the street lamp poles on the state holidays. Only RED. It was everywhere. You couldn't escape it. I learned to hate it. For some reason my very first 'red pioneer tie' survived. At school I was told that it's my very own, 'piece of the red flag' and I have to cherish it. I remember ironing it every day before school and cutting off the loose threads off the edges. In time this red silk triangular lost all its political meaning. Wearing it every day to school was the part of my life then, as well as my dad's razor and his old mesh

shopping bag, which he had in his coat pocket every time he stepped out of the house, just 'in-case'. Or as my grandma's old tiny scissors or mom's gold watch, her only treasure, which she wore only on holidays. To me, born only a decade after the Second World War had ended, even my dad's war medals were not the history yet, but a part of life. Red tie appears in each photograph of the series as a connector between me and my loved ones, between past and present. Working on the 'MEMORIES IN RED' series I found myself at peace with RED. Finally. The series is dedicated to the memory of my family"--Page 4 of cover.

Redbuds Are Not Red Oct 08 2020 The redbud tree that is so prominent in the landscape of eastern Kentucky during the early spring when they are profusely blooming is something that "draws" people back to the mountains. "I want to come back when the redbuds are blooming" is a common refrain from many folks who want to come back home or a stranger who wants to just come and experience the beauty of the mountains. Yet the redbuds are not red; they are a deep pink, and neither are all of the natives of the Appalachian Mountains and the hills of eastern Kentucky lazy, illiterate, apathetic, drug addicts, and generally low-class citizens. But still this region is identified as being a society made up of these individuals. Redbuds Are Not Red is written to illustrate that just as the tree is known for its "red" name, there is a misconception about it. The same is true of the people who are perceived in a negative sense, and this story attempts to describe a region that has good people, respectable and honest people, who need to be seen through a different perspective. It is written to illustrate that despite the poverty, deprivation, and lack of many needed resources, there is a way of life here that is good, decent, and deserving of the same respect and acknowledgment as any other segment of this great nation. People can come out of these hardships and rise to positions of productivity, respectability, and prominence.

Red Hills and Cotton Nov 08 2020 Red Hills and Cotton is suffused with Ben Robertson's deep affection for his native Upcountry South Carolina. An internationally known and respected journalist, Robertson had a knack for finding the interesting and exotic in seemingly humble or ordinary folk and a keen eye for human interest stories. His power of description and disarmingly straightforward narrative were the hallmarks of his writing. A loyal Southern son, Robertson cherished what he judged to be the South's best traditions: personal independence and responsibility, the rejection of crass materialism, a deep piety, and a love of freedom. He repeatedly lamented the region's many shortcomings: poverty, racial hierarchy, political impotence, lack of intellectual curiosity, and its tendency to blame all of its twentieth-century problems on the defeat of the Confederacy. An informative and entertaining new introduction by Lacy K. Ford, Jr., associate professor of history at the University of South Carolina, provides fascinating new facts about Robertson's life and recasts his achievements in Red Hills and Cotton as social commentary. Ford captures the essence of Robertson's restless and questioning, but unfailingly Southern, spirit.

Red Car Era an Album Mar 01 2020 During the first six decades of the Twentieth

Century, Southern California boasted a comprehensive network of suburban electrically powered trains and trolleys. Known as the Pacific Electric, it was the world's largest interurban electric system. In their bright red livery, the Red Cars went everywhere. Lines extended along the beaches from Balboa to Santa Monica Canyon; from the cool snow covered alpine heights of Mount Lowe to the hot dry sandy desert of the San Fernando Valley; and from Los Angeles to the rural orange groves of Orange, Riverside and San Bernardino Counties. At its peak, Pacific Electric operated 6,200 trains daily over 1,061 miles of track. Raphael Long was there at mid-century photographing the system during its final years under Pacific Electric management. Presented here are 230 images from Mr. Long's private collection. Red Car Era is filled with memories of a Southern California and Pacific Electric Railway that once was and will never be again.

Red Legacies in China Feb 09 2021 What has contemporary China inherited from its revolutionary past? How do the realities and memories, aesthetics and practices of the Mao era still reverberate in the post-Mao cultural landscape? The essays in this volume propose “red legacies” as a new critical framework from which to examine the profusion of cultural productions and afterlives of the communist revolution in order to understand China’s continuities and transformations from socialism to postsocialism. Organized into five parts—red foundations, red icons, red classics, red bodies, and red shadows—the book’s interdisciplinary contributions focus on visual and performing arts, literature and film, language and thought, architecture, museums, and memorials. Mediating at once unfulfilled ideals and unmourned ghosts across generations, red cultural legacies suggest both inheritance and debt, and can be mobilized to support as well as to critique the status quo.
