Echoing Voices in Italian Literature Oct 25 2019 This collection of essays explores the reception of classics and translation from modern languages as two different, yet synergic, ways of engaging with literary canons and established traditions in 20th-century Italy. These two areas complement each other and equally contribute to shape several kinds of identities: authorial, literary, national and cultural. Foregrounding the transnational aspects of key concepts such as poetics, literary voice, canon and tradition, the book is intended for scholars and students of Italian literature and culture, classical reception and translation studies. With its two shifting focuses, on forms of classical tradition and forms of literary translation, the volume brings to the fore new configurations of 20th-century literature, culture and thought.

The YMCA at War Apr 11 2021 The Young Men’s Christian Association (YMCA) is best known for its athletic and youth programs, a heritage that draws on its origins in 1844 to provide wholesome recreation to urban youth away from the moral decay of industrialized urban living. Before long, that uplift mission found a place in the American Civil War, and soon the Y had spread all over the world by the early twentieth century, and in every major war thereafter as well. The YMCA at War: Collaboration and Conflict during the World Wars is the first collection of scholarship to examine the YMCA’s efforts during the World Wars of the twentieth century, which proved to be a bastion of support to soldiers and civilians around the world. The YMCA deployed hundreds of thousands of its much-vaunted secretaries to support suffering civilians and ease soldiers’ wartime hardships. Joining forces with governments, other civic organizations, and individuals, the Y could be either an indispensable auxiliary or an arms-length nuisance. In all cases, its support had a significant byproduct: for every person it befriended, the Y invariably made an enemy with an opposing party, its patrons, its sponsor, or at times, all three. The YMCA at War offers fresh, timely research in an international and comparative perspective from scholars around the world that evaluates this conflict and collaboration during the World Wars.

Il confine orientale Sep 16 2021 Il confine orientale può essere considerato come uno spazio in cui per secoli si sono intrecciate e sovrapposte molteplici frontiere, di natura politica, culturale, religiosa e infine nazionale. Un luogo non solo fisico, in quanto parte dell’Adriatico e in sostanza limine fra la penisola italiana e quella balcanica, ma anche cesura tra l’Europa occidentale e quella orientale in senso generico. Proprio in quanto superficie di rottura, il confine orientale rimane certamente un nodo caratteristico nella storia d’Italia. Collocato geograficamente dalle sponde del fiume Isonzo alla displuviale alpina orientale, racchiude il Carso (triestino e goriziano) e la penisola istriana sino a Fiume e al litorale dalmata con i suoi arcipelaghi di isole fino a Cattaro. In esatta sintonia con i numerosi contrasti confinari avvenuti in Europa fra la seconda metà del XIX secolo e la prima del XX, la storia del confine orientale italiano perdura come tentativo emblematico di fissare all’interno di una regione multiforme ed eterogenea per vicende e popoli una frontiera egemonica. Limite mutevole perché sempre fissato su termini ideologici e proprio per questo di perpetua ardua demarcazione. Nel più generale panorama storiografico sulla questione, il volume intende porsi quale strumento accessibile anche a un pubblico non specialistico interessato alle tematiche istriano-dalmate. Dalla pace di Campoformio ai fermenti irredentisti di fine Ottocento, dalle rivendicazioni seguite alla Grande guerra sino alla politica fascista e all’esodo giuliano, il saggio approfondisce lo scenario diplomatico internazionale con le sue implicazioni - prima e dopo - la Seconda guerra mondiale per seguire (grazie a una ricca messe di riferimenti bibliografici italiani e stranieri) l’evolversi delle contese per la definizione confinaria. L’autore considera i molti aspetti endogeni ed esogeni in costante azione nell’area considerata, giungendo all’epoca più recente, dopo la crisi della Jugoslavia, ed esaminando i rapporti con l’Unione europea, la cooperazione interstatale e la politica culturale in atto fra Italia, Slovenia e Croazia.

The Power of Disturbance Aug 23 2019 Aracoeli (1982) was the last novel written by Elsa Morante (1912-85), one of the most significant Italian writers of the twentieth century. The journey, both geographical and memorial, of a homosexual son in search of his dead mother is a first-person narrative that has puzzled many critics for its darkness and despair. By combining scholars from different disciplines and cultural traditions, this volume re-evaluates the esthetical and theoretical complexity of Morante's novel and argues that it engages with crucial philosophical and epistemological questions in an original and profound way. Contributors explore the manifold tensions staged by the novel in connection with contemporary philosophical discourse (from feminist/queer to political theory to psycho-analysis) and authors (such as Emilio Gadda, Pier Paolo Pasolini and Pedro Almodovar). The Power of Disturbance shows that by creating a 'hallucinatory' representation of the relationship between mother and child, Aracoeli questions the classical distinction between subject and object, and proposes an altogether new and subversive kind of writing. Manuele Gragnolati teaches Italian literature at Oxford University, where he is a Fellow of Somerville College. Sara Fortuna teaches philosophy of language at the Università Guglielmo Marconi in Rome.

Curating Italian Fashion May 12 2021 Since the 2000s, fashion exhibitions have become some of the most popular displays presented in museums. Fashion brands celebrate anniversaries with blockbuster retrospectives and lavish catalogues, and increasingly exhibit archive pieces in their stores. Italy is a major player in the global fashion industry, yet little has been written about its contribution to fashion curation. This book explores the management, display and curation of Italian fashion heritage, highlighting the role played by companies and industry associations. By contextualising fashion curation within Italy's economy, culture and art-historical tradition, this book unfolds the ties between the preservation of fashion heritage and corporate policies. It traces the shift of companies from sponsors to cultural producers and discusses the different uses of archives and exhibitions. Through the critical analysis of key examples such as Salvatore Ferragamo, Pitti Immagine and Gucci, this book illustrates how the inevitable commercial interests underlying fashion curation can exist alongside the scholarly contribution of corporate initiatives. Most importantly, it defines the curatorial approaches developed by the involvement of the industry in fashion curation, thus providing an overarching interpretation of the characteristics of this practice in Italy. Matteo Augello provides an unprecedented insight into the management of Italian fashion heritage and presents a comprehensive account of the development of fashion curation in Italy, drawing from archival records, existing literature and oral history. This book is essential reading for scholars, industry professionals and students interested in the intersections of curation, heritage, national identity and corporate cultural policies.

IL GRANDE NIDO che ha dato ORIGINE al BIG BANG DEI BUCHI NERI DI STEPHEN HAWKING Sep 04 2020 Stephen Hawking avrebbe dovuto passare più tempo ad aiutare la scienza medica a risolvere i problemi, compreso il suo, anziché cercare buchi neri nelle profondità della sua "mente brillante", criticando aspramente quella che lo ha creato. Il dramma che lo ha reso disabile avrebbe potuto spingerlo a usare la sua "mente brillante" per aiutare gli altri sulla terra, invece di cercare buchi neri e inseguire l’infinitesimo, lasciando che se ne occupino quelli che non sono in condizioni fisiche come la sua. Avrebbe potuto divertirsi con un telescopio a casa sua, come facevo io quando abitavo a Miami, North Miami Beach, e poi a Oakland Park, mentre lo scorrere del tempo scandiva la mia vita. A quanto ne so, l’orgoglio di essere l’uomo dei buchi neri non lo sta aiutando, perché avrebbe dovuto spiegarci come difenderci da questi mostri anti Dio. Se uno di loro va fuori orbita e ci viene addosso, lui e la sua famiglia diventano cibo per buchi neri, poiché non hanno un Dio che li difende. Questi divoratori della galassia terrorizzano angeli e demoni, e turbano i sogni dei bambini.

Finding Blindness Jul 22 2019 This edited volume explores blindness as a construct with which we the contributors engage as part of our social existence and/or academic research. Irrespective of eye conditions, or the lack thereof, blindness is an understanding at which we have all come to arrive. On the way to this conceptual point, which is in any case unlikely ever to be fixed, we have passed or visited many formative cultural stations. In the terms of autocritical disability studies (i.e. an explicitly embodied development of critical disability studies), these cultural stations include key moments in education and training; the reflective pursuits of philosophy, aesthetics, and cultural theory; literary works such as autobiography, novels, short stories, drama, and poetry; visual texts ranging from photography to postage stamps; technological developments like television, computer applications, and social media; value systems defined by family and/or religion; and the social phenomenon of hate and war. Each chapter in this volume engages with two of these cultural stations; some ostensibly if not profoundly positive or indeed negative, some that contradict each other within and across chapters. This book will be of interest to all scholars and students of disability studies, sociology, education and health.

Italian Sign Language from a Cognitive and Socio-semiotic Perspective Jul 02 2020 This volume reveals new insights on the faculty of language. By proposing a new approach in the analysis and description of Italian Sign Language (LIS), that can be extended also to other sign languages, this book also enlightens some aspects of spoken languages, which were often overlooked in the past and only recently have been brought to the fore and described. First, the study of face-to-face communication leads to a revision of the traditional dichotomy between linguistic and enacted, to develop a new approach to embodied language (Kendon, 2004). Second, all structures of language take on a sociolinguistic and pragmatic meaning, as proposed by cognitive semantics, which considers it impossible to trace a separation between purely linguistic and extralinguistic knowledge. Finally, if speech from the point of view of its materiality is variable, fragile, and non-segmentable (i.e. not systematically discrete), also signs are not always segmentable into discrete, invariable and meaningless units. This then calls into question some of the properties traditionally associated with human languages in general, notably that of ‘duality of patterning’. These are only some of the main issues you will find in this volume that has no parallel both in sign and in spoken languages linguistic research.

The Social Condition of Deaf People Dec 27 2019 This book is about the social condition of Deaf people, told through a Deaf woman's autobiography and a series of essays investigating how hearing societies relate to Deaf people. Michel Foucault described the powerful one as the beholder who is not seen. This is why a Deaf woman's perspective is important: Minorities that we don't even suspect we have power over observe us in turn. Majorities exert power over minorities by influencing the environment and institutions that simplify or hinder lives: language, mindsets, representations, norms, the use of professional power. Based on data collected by Eurostat, this volume provides the first discussion of statistics on the condition of Deaf people in a series of European countries, concerning education, labor, gender. This creates a new opportunity to discuss inequalities on the basis of data. The case studies in this volume reconstruct untold moments of great advancement in Deaf history, successful didactics supporting bilingualism, the reasons why Deaf empowerment for and by Deaf people does and does not succeed. A work of empowerment is effective if it acts on a double level: the community to be empowered and society at large, resulting in a transformation of society as a whole. This book provides instruments to work towards such a transformation.
