Sectarianization May 06 2020 As the Middle East descends ever deeper into violence and chaos, 'sectarianism' has become a catch-all explanation for the region's troubles. The turmoil is attributed to 'ancient sectarian differences', putatively primordial forces that make violent conflict intractable. In media and policy discussions, sectarianism has come to possess trans-historical causal power. This book trenchantly challenges the lazy use of 'sectarianism' as a magic-bullet explanation for the region's ills, focusing on how various conflicts in the Middle East have morphed from non-sectarian (or cross-sectarian) and nonviolent movements into sectarian wars. Through multiple case studies -- including Syria, Iraq, Lebanon, Saudi Arabia, Bahrain, Yemen and Kuwait -- this book maps the dynamics of sectarianisation, exploring not only how but also why it has taken hold. The contributors examine the constellation of forces -- from those within societies to external factors such as the Saudi-Iran rivalry -- that drive the sectarianisation process and explore how the region's politics can be de-sectarianised. Featuring leading scholars -- and including historians, anthropologists, political scientists and international relations theorists -- this book will redefine the terms of debate on one of the most critical issues in international affairs today.

Financial Markets and Institutions Aug 28 2019 Written for undergraduate and graduate students of finance, economics and business, the third edition of Financial Markets and Institutions provides a fresh analysis of the European financial system. Combining theory, data and policy, this successful textbook examines and explains financial markets, financial infrastructures, financial institutions and the challenges of financial supervision and competition policy. The third edition features greater discussion of the financial and euro crises, including extensive analysis of their causes and impact, as well as their remedies. New material covers unconventional monetary policies, the Banking Union, the Basel 3 capital adequacy framework for banking supervision, macroprudential policies and state aid control applied to banks. The new edition also features wider international coverage, with greater emphasis on comparisons with countries outside the European Union. Visit the companion website at [www.cambridge.org/de\\_Haan3e](http://www.cambridge.org/de_Haan3e) for password-protected PowerPoint lecture slides, solutions, figures and tables for instructors, and exercises for students.

Research Handbook on Behavioral Law and Economics Oct 23 2021 The field of behavioral economics has contributed greatly to our understanding of human decision making by refining neoclassical assumptions and developing models that account for psychological, cognitive, and emotional forces. The field's insights have important implications for law. This Research Handbook offers a variety of perspectives from renowned experts on a wide-ranging set of topics including punishment, finance, tort law, happiness, and the application of experimental literatures to law. It also includes analyses of conceptual foundations, cautions, limitations and proposals for ways forward.

The National Security Constitution Jul 28 2019 This book addresses the various ways in which modern approaches to the protection of national security have impacted upon the constitutional order of the United Kingdom. It outlines and assesses the constitutional significance of the three primary elements of the United Kingdom's response to the possibility of terrorism and other phenomena that threaten the security of the state: the body of counter-terrorism legislation that has grown up in the last decade and a half; the evolving law of investigatory powers; and, to the extent relevant to the domestic constitution, the law and practice governing international military action and co-operation. Following on from this, the author demonstrates that considerations of national security -- as a good to be protected and promoted in contemporary Britain -- are reflected not merely in the existence of discrete bodies of law by which it is protected at home and abroad, but simultaneously and increasingly leaked into other areas of public law. Elements of the constitution which are not directly and inherently linked to national security nevertheless become (by both accident and design) implicated in the state's national security endeavours, with significant and at times far-reaching consequences for the constitutional order generally. A renewed and strengthened concern for national security since September 2001 has, it is argued, dragged into its orbit a variety of constitutional phenomena and altered them in its image, giving rise to what we might call a national security constitution.

Students, Grade XI students, teachers and anyone who is interested in psychologists, theories, pedagogy concepts, concepts on child development etc. This book has been designed in such a way that learners with minimum English language skills will also comprehend the concepts. The book will definitely help you understand each and every concept very clearly and to get extraordinary score in CTET and other TETs in your first attempt itself.

**The Patient Will See You Now** Mar 16 2021 The essential guide by one of America's leading doctors to how digital technology enables all of us to take charge of our health A trip to the doctor is almost a guarantee of misery. You'll make an appointment months in advance. You'll probably wait for several hours until you hear "the doctor will see you now"-but only for fifteen minutes! Then you'll wait even longer for lab tests, the results of which you'll likely never see, unless they indicate further (and more invasive) tests, most of which will probably prove unnecessary (much like physicals themselves). And your bill will be astronomical. In *The Patient Will See You Now*, Eric Topol, one of the nation's top physicians, shows why medicine does not have to be that way. Instead, you could use your smartphone to get rapid test results from one drop of blood, monitor your vital signs both day and night, and use an artificially intelligent algorithm to receive a diagnosis without having to see a doctor, all at a small fraction of the cost imposed by our modern healthcare system. The change is powered by what Topol calls medicine's "Gutenberg moment." Much as the printing press took learning out of the hands of a priestly class, the mobile internet is doing the same for medicine, giving us unprecedented control over our healthcare. With smartphones in hand, we are no longer beholden to an impersonal and paternalistic system in which "doctor knows best." Medicine has been digitized, Topol argues; now it will be democratized.

Computers will replace physicians for many diagnostic tasks, citizen science will give rise to citizen medicine, and enormous data sets will give us new means to attack conditions that have long been incurable. Massive, open, online medicine, where diagnostics are done by Facebook-like comparisons of medical profiles, will enable real-time, real-world research on massive populations. There's no doubt the path forward will be complicated: the medical establishment will resist these changes, and digitized medicine inevitably raises serious issues surrounding privacy. Nevertheless, the result-better, cheaper, and more human health care-will be worth it. Provocative and engrossing, *The Patient Will See You Now* is essential reading for anyone who thinks they deserve better health care. That is, for all of us.

**Linking EU Climate and Energy Policies** Dec 13 2020 Based on an innovative theoretical framework combining theories of EU policy making, negotiation and implementation, this comprehensive book examines EU climate and energy policies from the early 1990s until the adoption of new policies for 2030. The authors investigate how the linking of climate and energy concerns in policy packages has facilitated agreement among EU leaders with very different policy ambitions. Employing in-depth studies from a diverse range of energy-economic countries, the book also explores the impact of the implementation of policies on the climate and energy policy framework and the Energy Union initiative.

**Core-periphery Relations in the European Union** Nov 23 2021 Successive Enlargements to the European Union membership have transformed it into an economically, politically and culturally heterogeneous body with distinct vulnerabilities in its multi-level governance. This book analyses core-periphery relations to highlight the growing cleavage, and potential conflict, between the core and peripheral member-states of the Union in the face of the devastating consequences of Eurozone crisis. Taking a comparative and theoretical approach and using a variety of case studies, it examines how the crisis has both exacerbated tensions in centre-periphery relations within and outside the Eurozone, and how the European Union's economic and political status is declining globally. This text will be of key interest to students and scholars of European Union studies, European integration, political economy, public policy, and comparative politics.

A Political Economy of the Middle East Sep 29 2019 A Political Economy of the Middle East is the most comprehensive analysis of developments in the political economy of the region over the past several decades, examining the interaction of economic development processes, state systems and policies, and social actors in the Middle East. The fourth edition, with new authors Melani Cammett and Ishac Diwan, has been thoroughly revised, with two new introductory chapters that provide an updated framework with which to understand and study the many changes in demography, education, labor markets, urbanization, water and agriculture, and international labor migration in the recent years. The new edition also includes: a new chapter that charts the political economy of the Gulf states and, in particular, the phenomenal growth of oil economies; a new chapter on the rise of "crony capitalism;" and increased coverage of the changes in civil society and social movements in the region, including an exploration of the causes, dynamics, consequences, and aftermath of the Arab uprisings.

Corporations and Disability Rights Feb 12 2021 The emergence of a decentralized, fragmented, and low-cost Internet opened up possibilities for persons with disabilities to lead an independent and inclusive life, which had been denied to them in the physical world. The virtual world, unlike the physical world, was presumed to be devoid of physical, social, and attitudinal barriers that have historically led to the marginalization and exclusion of persons with disabilities. Yet with advancement in technology, concerns of persons with disabilities to access the Internet were relegated to the background. Since the Internet is largely dominated by corporations, this digital divide cannot be bridged without questioning their role; and corporations, as gatekeepers of the virtual world, need to proactively engage in dismantling barriers to accessing the Internet. Corporations and Disability Rights engages with the contemporary discourse on the nature of the right to access the Internet and contextualizes this right within the framework of emerging disability rights jurisprudence. This book explores the interplay between human rights of persons with disabilities and corporate obligation in a technologically advanced society. It argues that under disability rights jurisprudence, the right to access the Internet is a human right and not merely an enabling right. It bridges the existing normative and regulatory gaps for the effective realization of the right to access the Internet.

Understanding Violence Against Women in Africa Jul 08 2020 This textbook provides students across Social Sciences, Humanities, Politics, and International Studies with an in-depth understanding of the issues, policies, and strategies for addressing the symptoms and root causes of violence against women (VAW) in sub-Saharan Africa. This text uses the United Nations Security Councils Resolution 1325 (UNSCR 1325) on Women, Peace and Security in Eastern and Southern Africa as a framework to present the causes and impacts of VAW and to trace the journey of sub-Saharan African countries toward gender equality. It also provides an overview of the policy and legislative frameworks that underpin the progress, challenges, and achievements of addressing VAW based on four key pillars: prevention, protection, participation, and relief and recovery. Chapters provide a wealth of knowledge, as the book draws on academic literature; national, regional, and international legislations; and data collected from field research, and makes use of end-of-chapter discussion questions and quick study guides. Students will come away equipped with the tools, resources, and knowledge necessary to address and fix VAW in sub-Saharan Africa and beyond. Francis Onditi heads the School of International Relations and Diplomacy in Riara University, Kenya and was recently enlisted as a Distinguished Author and Professor of Research at the Institute of Intelligent Systems, University of Johannesburg, South Africa. He is the 2019 recipient of the AISA Fellowship awarded by the Human Sciences Research Council (HSRC), South Africa. He is a widely published pan-African peace researcher with numerous research papers in peer reviewed journals. He has authored/coedited 3 books including Conflictology: Systems, Institutions and Mechanisms in Africa. Josephine Odera is the immediate former Director of Africa Centre for Transformative & Inclusive Leadership (ACTIL). She formerly served as Regional Director, West and Central Africa, UN Women; Regional Advisor, Leadership & Governance at the United Nations Women Regional Office for East and Southern Africa; and taught at the University of Nairobi's Institute of Diplomacy & International Studies (IDIS). She currently serves as a conflict & mediation expert in various African countries.

Producing Women Feb 01 2020 Producing Women examines the ways femininity is produced through new media. Michele White considers how women are constructed, produce themselves as subjects, form vital production cultures on sites like Etsy, and deploy technological processes to reshape their identities and digital characteristics. She studies the means through which women market traditional female roles, are viewed, and produce and restructure their gendered, raced, eroticized, and sexual identities. Incorporating a range of examples across numerous forms of media—including trash the dress wedding photography, Internet how-to instructions about zombie walk brides, nail polish blogging, DIY crafting, and reborn doll production—Producing Women elucidates women's production cultures online, and the ways that individuals can critically study and engage with these practices.

Accountability in the Economic and Monetary Union Apr 16 2021 Following the financial and public debt crisis, the EU's Economic and Monetary Union (EMU) has been under intense political scrutiny. The measures adopted in response to the crisis have granted additional powers to the EU (and national) authorities, the exercise of which can have massive implications for the economies of the Member States, financial institutions and, of course, citizens. The following questions arise: how can we hold accountable those institutions that are exercising power at the national and EU level? What is the appropriate level, type and degree of accountability and transparency that should be involved in the development of the EU's governance structures in the areas of fiscal and economic governance and the Banking Union? What is the role of parliaments and courts in holding those institutions accountable for the exercise of their duties? Is the revised EMU framework democratically legitimate? How can we bridge the gap between the citizens - and the institutions that represent them - and those institutions that are making these important decisions in the field of economic and monetary policy? This book principally examines the mechanisms for political and legal accountability in the EMU and the Banking Union. It examines the implications that the reforms of EU economic governance have had for the locus and strength of executive power in the Union, as well as the role of parliaments (and other political fora) and courts in holding the institutions acting in this area accountable for the exercise of their tasks. It further sets out several proposals regarding transparency, accountability, and legitimacy in the EMU.

PSA for Class IX Oct 30 2019 PSA For Class IX is a compact yet exhaustive resource for students for a quick and basic understanding of relevant concepts and theories. It comprises five parts: Qualitative Analysis, Quantitative Analysis, English Comprehensions, Data Interpretation and Passages, and Assessment Zone. The book helps students solve time-management problems and increase their IQ and reasoning ability, which are quite essential for success in any career. KEY FEATURES • Designed in the format provided by the CBSE • Includes all possible types of questions actually asked in the examination • Sections on 'Let's Try' in each chapter will help students develop creative thinking • Will help in understanding the basics of Science and Mathematics • Will help students learn more in less time • Includes solved previous years' question papers along with two Model Test Papers

Lead Market India Jan 02 2020 India is still perceived by some as a developing country that has yet to create world-class products of its own. However, this book shows that in recent years India has emerged as a lead market for frugality-driven innovations that are affordable, robust and successful even outside its geographic boundaries. Many global companies have recognized these changes and are ramping up their local R&D capabilities. At the same time, several Indian firms are venturing out to international shores and gaining access to new markets. Using a top-down approach, the book takes a closer look at systems of innovation at work and presents examples of successful, corporate innovations in multiple industries and their contextual conditions.
