The Making of African America Jun 06 2020 An award-winning historian's sweeping new interpretation of the African American experience. In this masterful account, Ira Berlin, one of the nation's most distinguished historians, offers a revolutionary-and sure to be controversial-new view of African American history. In *The Making of African America*, Berlin challenges the traditional presentation of a linear, progressive history from slavery to freedom. Instead, he puts forth the idea that four great migrations, between the seventeenth and twenty-first centuries, lie at the heart of black American culture and its development. With an engrossing, accessible narrative, Berlin traces the transit from Africa to America, Virginia to Alabama, Biloxi to Chicago, Lagos to the Bronx, and in the process finds the essence of black American life.

The Making of Citizen Kane, Revised Edition Mar 28 2022 Citizen Kane, widely considered the greatest film ever made, continues to fascinate critics and historians as well as filmgoers. While credit for its genius has traditionally been attributed solely to its director, Orson Welles, Carringer's pioneering study documents the shared creative achievements of Welles and his principal collaborators. *The Making of Citizen Kane*, copiously illustrated with rare photographs and production documents, also provides an in-depth view of the operations of the Hollywood studio system. This new edition includes a revised preface and overview of criticism, an updated chronology of the film's reception history, a reconsideration of the locus of responsibility of Welles's ill-fated *The Magnificent Ambersons*, and new photographs.

Inky Fingers Feb 01 2020 The author of *The Footnote* reflects on scribes, scholars, and the work of publishing during the golden age of the book. From Francis Bacon to Barack Obama, thinkers and political leaders have denounced humanists as obsessively bookish and allergic to labor. In this celebration of bookmaking in all its messy and intricate detail, renowned historian Anthony Grafton invites us to see the scholars of early modern Europe as diligent workers. Meticulously illuminating the physical and mental labors that fostered the golden age of the book—the compiling of notebooks, copying and correction of texts and proofs, preparation of copy—he shows us how the exertions of scholars shaped influential books, treatises, and forgeries. *Inky Fingers* ranges widely, tracing the transformation of humanistic approaches to texts in the seventeenth and eighteenth centuries and examining the simultaneously sustaining and constraining effects of theological polemics on sixteenth-century scholars. Grafton draws new connections between humanistic traditions and intellectual innovations, textual learning and craft knowledge, manuscript and print. Above all, Grafton makes clear that the nitty-gritty of bookmaking has had a profound impact on the history of ideas—that the life of the mind depends on the work of the hands.

The Big Goodbye Aug 28 2019 From the New York Times bestselling author of *Fifth Avenue, Five A.M.* and *Fosse* comes the revelatory account of the making of a modern American masterpiece *Chinatown* is the Holy Grail of 1970s cinema. Its twist ending is the most notorious in American film and its closing line of dialogue the most haunting. Here for the first time is the incredible true story of its making. In Sam Wasson's telling, it becomes the defining story of the most colorful characters in the most colorful period of Hollywood history. Here is Jack Nicholson at the height of his powers, as compelling a movie star as there has ever been, embarking on his great, doomed love affair with Anjelica Huston. Here is director Roman Polanski, both predator and prey, haunted by the savage death of his wife, returning to Los Angeles, the scene of the crime, where the seeds of his own self-destruction are quickly planted. Here is the fevered dealmaking of "The Kid" Robert Evans, the most consummate of producers. Here too is Robert Towne's fabled script, widely considered the greatest original screenplay ever written. Wasson for the first time peels off layers of myth to provide the true account of its creation. Looming over the story of this classic movie is the imminent eclipse of the '70s filmmaker-friendly studios as they gave way to the corporate Hollywood we know today. In telling that larger story, *The Big Goodbye* will take its place alongside classics like *Easy Riders*, *Raging Bulls* and *The Devil's*

Candy as one of the great movie-world books ever written. Praise for Sam Wasson: "Wasson is a canny chronicler of old Hollywood and its outsize personalities...More than that, he understands that style matters, and, like his subjects, he has a flair for it." - The New Yorker "Sam Wasson is a fabulous social historian because he finds meaning in situations and stories that would otherwise be forgotten if he didn't sleuth them out, lovingly." - Hilton Als

This comprehensive, yet accessible introduction to the major economic philosophers of the past 225 years begins with Adam Smith and continues through the present day. The text examines the contributions made by each individual to our understanding of the role of the economist, the science of economics, and economic theory. To make the work more engaging, boxes in each chapter highlight little-known - and often amusing - facts about the economists' personal lives that affected their work.

The Making of Planet of the Apes Apr 16 2021 FOREWORD BY FRASER HESTON In celebration of the fiftieth anniversary of *Planet of the Apes*, the classic science-fiction film from 1968, *The Making of Planet of the Apes* tells the film and offers exclusive, never-before-seen photographs and concept art. Based on Pierre Boulle's novel *La Planète de singes*, the original *Planet of the Apes* was one of the most celebrated films of the 1960s and beyond. Starring Hollywood icons Charlton Heston and Roddy McDowall, the movie struck a chord with the world and sparked a franchise that included eight sequels, two television series, and a long-running comic book. Now, five decades after its theatrical release, New York Times bestselling author J. W. Rinzler tells the thrilling story of this legendary Hollywood production—a film even Boulle thought would be impossible to make. With a foreword by Fraser Heston, Charlton Heston's son, *The Making of Planet of the Apes* is an entertaining, informative experience that will transport readers back to the strange alternate Earth ruled by apes, and bring to life memorable characters such as Cornelius, Dr. Zira, Dr. Zaius, and Taylor, the human astronaut whose time-traveling sparks an incredible adventure. Meticulously researched and designed to capture the look and atmosphere of the film, *The Making of Planet of the Apes* is also packed with a wealth of concept paintings, storyboards, and never-before-seen imagery—including rare journal pages and sketches from Charlton Heston's private collection—as well as color and black-and-white unit photography, posters, and more unique ephemera. The Making of Don May 06 2020 When Chandra Barot set out to make *Don*, it was not with the idea of giving birth to one of India's most iconic thrillers but to make a good film for a good cause. No one involved with the making of the film foresaw the kind of overarching impact it would have, not only in terms of its success at the box office but in spawning a cult phenomenon that would stay strong more than three decades later—with its slick theme, fantastic music and unforgettable dialogues, that is what *Don* became. The journey of *Don* was not an easy one. Shot over four years, it faced several hurdles before making it to the theatres. While the casting and music of *Don* have now acquired legendary status, there were some close shaves before it all came together: Iftekhar's role of the cop was eyed by a big star of the 1960s; getting Kalyanji-Anandji to compose the score called for a delicate balancing act; it was only thanks to the shrewd advice of a mentor that the super-successful 'Khai ke paan Banaras wala' was included at the very last minute. And, wonder of wonders, it was not Amitabh Bachchan who was paid the most for the film! Through a fast-paced narrative born out of interviews with the cast and crew, and supplemented with rare photographs from the director's archives, *The Making of Don* tells a tale that is as compelling as the one that finally made it to the big screen. Engaging and captivating, this is the story of one of Bollywood's most memorable classics.

The Making of Horror Movies Feb 24 2022 Horror films divide opinion. It wasn't until 1973 that a horror film (The Exorcist) was nominated for an Oscar for Best Picture and many respected critics still regard them with amused condescension. The public's view is also sharply divided. Some cinema goers revel in the thought of being made very, very afraid, while some just don't like horror films because they don't want to be frightened. This guide, which is for both the fan and the more faint-hearted, steers an illuminating path through a genre that has, since the early days of cinema, split off into many sub-divisions - folk horror, slasher movies, Hammer, sci-fi horror, psychological thrillers, zombie movies, among others. Times change but movie-makers can always find a way to tap into what we fear and dread, whether it's blood-sucking vampires or radioactive mutations, evil children or the living dead. This book also gives concise biographies of the many actors and directors who saw their careers - for better or worse - defined by their association with horror movies, and who created a genre that is instantly recognizable in all its forms and continues to find new and ingenious ways of scaring us in the dark.

Making of a Therapist Apr 04 2020 Lessons from the personal experience and reflections of a therapist. The difficulty and cost of training psychotherapists properly is well known. It is far easier to provide a series of classes while ignoring the more challenging personal components of training. Despite the fact that the therapist's self-insight, emotional maturity, and calm centeredness are critical for successful psychotherapy, rote knowledge and technical skills are the focus of most training programs. As a result, the therapist's personal growth is either marginalized or ignored. The Making of a Therapist counters this trend by offering graduate students and beginning therapists a personal account of this important inner journey. Cozolino provides a unique look inside the mind and heart of an experienced therapist. Readers will find an exciting and privileged window into the experience of the therapist who, like themselves, is just starting out. In addition, The Making of a Therapist contains the practical advice, common-sense wisdom, and self-disclosure that practicing professionals have found to be the most helpful during their own training. The first part of the book, 'Getting Through Your First Sessions,' takes readers through the often-perilous days and weeks of conducting initial sessions with real clients. Cozolino addresses such basic concerns as: Do I need to be completely

healthy myself before I can help others? What do I do if someone comes to me with an issue or problem I can't handle? What should I do if I have trouble listening to my clients? What if a client scares me? The second section of the book, 'Getting to Know Your Clients,' delves into the routine of therapy and the subsequent stages in which you continue to work with clients and help them. In this context, Cozolino presents the notion of the 'good enough' therapist, one who can surrender to his or her own imperfections while still guiding the therapeutic relationship to a positive outcome. The final section, 'Getting to Know Yourself,' goes to the core of the therapist's relation to him- or herself, addressing such issues as: How to turn your weaknesses into strengths, and how to deal with the complicated issues of pathological caretaking, countertransference, and self-care. Both an excellent introduction to the field as well as a valuable refresher for the experienced clinician, *The Making of a Therapist* offers readers the tools and insight that make the journey of becoming a therapist a rich and rewarding experience.

Flash: The Making of Weegee the Famous Jun 18 2021 Arthur Fellig's ability to arrive at a crime scene just as the cops did was so uncanny that he became known as "Weegee," claiming that he functioned as a human Ouija board. Weegee documented better than any other photographer the crime, grit, and complex humanity of midcentury New York City. In *Flash*, we get a portrait not only of the man (both flawed and deeply talented, with generous appetites for publicity, women, and hot pastrami) but also of the fascinating time and place that he occupied. From self-taught immigrant kid to newshound to art-world darling to latter-day caricature--moving from the dangerous streets of New York City to the celebrity culture of Los Angeles and then to Europe for a quixotic late phase of experimental photography and filmmaking--Weegee lived a life just as vivid as the scenes he captured. *Flash* is an unprecedented and ultimately moving view of the man now regarded as an innovator and a pioneer, one whose photographs are among the most powerful images of urban existence ever made.

Mad as Hell Aug 21 2021 The behind-the-scenes story of the making of the iconic movie Network, which transformed the way we think about television and the way television thinks about us "I'm mad as hell, and I'm not going to take this anymore!" Those words, spoken by an unhinged anchorman named Howard Beale, "the mad prophet of the airwaves," took America by storm in 1976, when Network became a sensation. With a superb cast (including Faye Dunaway, William Holden, Peter Finch, and Robert Duvall) directed by Sidney Lumet, the film won four Academy Awards and indelibly shaped how we think about corporate and media power. In Mad As Hell, Dave Itzkoff of The New York Times recounts the surprising and dramatic story of how Network made it to the screen. Such a movie rarely gets made any more—one man's vision of the world, independent of studio testing or market research. And that man was Paddy Chayefsky, the tough, driven, Oscar-winning screenwriter whose vision—outlandish for its time—is all too real today. Itzkoff uses interviews with the cast and crew, as well as Chayefsky's notes, letters, and drafts to re-create the action in front of and behind the camera at a time of swirling cultural turmoil. The result is a riveting account that enriches our appreciation of this prophetic and still-startling film. Itzkoff also speaks with today's leading broadcasters and filmmakers to assess Network's lasting impact on television and popular culture. They testify to the enduring genius of Paddy Chayefsky, who foresaw the future and whose life offers an unforgettable lesson about the true cost of self-expression.

Off the Cliff Jul 28 2019 A lively and revealing behind-the-scenes look at the making of one of history's most controversial and influential movies, drawing on exclusive interviews with the cast and crew. "You've always been crazy," says Louise to Thelma, shortly after she locks a police officer in the trunk of his car. "This is just the first chance you've had to express yourself." In 1991, Thelma & Louise, the story of two outlaw women on the run from their disenchanting lives, was a revelation. Suddenly, a film in which women were, in every sense, behind the wheel. It turned the tables on Hollywood, instantly becoming a classic, and continues to electrify audiences as a cultural statement of defiance. But if the film's place in history now seems certain, at the time its creation was a long shot. Only through sheer hard work and more than a little good luck did the script end up in the hands of the brilliant English filmmaker Ridley Scott, who saw its huge potential. With Scott on board, a team willing to challenge the odds came together—including the stars Geena Davis and Susan Sarandon and a fresh-faced up-and-coming actor named Brad Pitt, as well as legends like actor Harvey Keitel, composer Hans Zimmer, and old-school studio chief Alan Ladd Jr.—to create one of the most controversial movies of all time. But before icons like Davis and Sarandon got involved, Thelma & Louise was just an idea in the head of Callie Khouri, a thirty-year-old music video production manager, who was fed up with working behind the scenes on sleazy sets. At four a.m. one night, sitting in her car outside the ramshackle bungalow in Santa Monica that she shared with two friends, she had a vision: two women on a crime spree, fleeing their dull and tedious lives—lives like hers—in search of a freedom they had never before been able to realize. But in the late 1980s, Hollywood was dominated by men, both on the screen and behind the scenes. The likelihood of a script by an unheard-of screenwriter starring two women in lead roles actually getting made was remote. But Khouri had one thing going for her—she was so inexperienced she didn't really know she would be attempting the nigh impossible. In Off the Cliff, Becky Aikman tells the full extraordinary story behind this feminist sensation, which crashed through barricades and upended convention. Drawing on 130 exclusive interviews with the key players from this remarkable cast of actors, writers, and filmmakers, Aikman tells an inspiring and important underdog story about creativity, the magic of cinema, and the unjust obstacles that women in Hollywood continue to face to this day.

The Wild Bunch Mar 04 2020 For the fiftieth anniversary of the film, W.K. Stratton's definitive history of the making of The Wild Bunch, named one of the greatest Westerns of all time by the American Film Institute. Sam Peckinpah's film The Wild Bunch is the story of a gang of outlaws who are one big steal from retirement. When their attempted train robbery goes awry, the gang flees to Mexico and falls in with a brutal general of the Mexican Revolution, who offers them the job of a lifetime. Conceived by a stuntman, directed by a blacklisted director, and shot in the sand and heat of the Mexican desert, the movie seemed doomed. Instead, it became an instant classic with a dark, violent take on the Western movie tradition. In The Wild Bunch, W.K. Stratton tells the fascinating history of the making of the movie and documents for the first time the extraordinary contribution of Mexican and Mexican-American actors and crew members to the movie's success. Shaped by infamous director Sam Peckinpah, and starring such visionary actors as William Holden, Ernest Borgnine,

Edmond O'Brien, and Robert Ryan, the movie was also the product of an industry and a nation in transition. By 1968, when the movie was filmed, the studio system that had perpetuated the myth of the valiant cowboy in movies like *The Searchers* had collapsed, and America was riled by Vietnam, race riots, and assassinations. *The Wild Bunch* spoke to America in its moment, when war and senseless violence seemed to define both domestic and international life. *The Wild Bunch* is an authoritative history of the making of a movie and the era behind it.

In fact, it was the opposite, just a guy building the kind of golf course he himself would want to play---and tapping into something smart."---The Wall Street Journal This Is The Story of a man with a dream---as well as the vision and passion to make it come true. The dream was to build a great American links course, one that would contain all the excitement of the famous golfing destinations in Scotland and Ireland, storied places like St. Andrews and Ballybunion. The man was Mike Keiser, an entrepreneur and amateur golf enthusiast, founder of the successful company Recycled Paper Greetings, and *Dream Golf* is the story of how, with the help of some of the most colorful---and occasionally controversial---men in golf, he transformed a remote area on Oregon's Pacific coast into not one but four of the most stunning, challenging, and highly ranked courses in the world. These courses---Bandon Dunes, Pacific Dunes, Bandon Trails, and the newly opened Old Macdonald---are the antithesis of most modern American golf courses, where the features have been shaped by bulldozers and all too often look sleek, manicured, and artificial. All the holes at the Bandon complex have evolved naturally and are molded to fit the rugged, heaving coastal terrain, creating courses that provide much the same experience as playing the legendary "links" courses of the British Isles. With all three courses ranked in the Top 100 in the country by Golfweek, Golf Digest, and Golf Magazine, the courses at Bandon provide a "pure" golf experience, pitting the golfer against the elements, allowing the land to dictate the course, making players feel engaged with both nature and the game. When Bandon Trails, the third course in the complex, opened, *Golf Odyssey* magazine proclaimed, "Bandon Trails cements Bandon Dunes' position as the single best place to play golf in the world." Now with the opening of a fourth course, this one named Old Macdonald in honor of Charles Blair Macdonald, the father of American golf course architecture and the founder of the United States Golf Association, golfers will have an opportunity to experience an even more rugged, untamed version of the game. In this revised and expanded edition, Stephen Goodwin recounts the arduous task involved in creating this monumental new course, designed by renowned golf course architect Tom Doak. Featuring the classic principles and strategies that Macdonald incorporated into his own courses, Doak has shaped eighteen holes that pay tribute to the legendary Macdonald while offering a totally new and exciting experience. *Dream Golf* provides a gripping account of how one man thoroughly transformed his dream into reality and celebrates the imagination and daring that went into shaping one of America's most outstanding golf resorts.

Star Wars Jun 30 2022 Discusses how the movie "Star Wars" was made and how the special effects were created.

Caddyshack Feb 12 2021 "More fun to read than the movie was to watch... a scene-stealing book." — The Washington Post An Entertainment Weekly "Must List" selection *Caddyshack* is one of the most beloved comedies of all time, a classic snobs vs. slobs story of working class kids and the white collar buffoons that make them haul their golf bags in the hot summer sun. It has sex, drugs and one very memorable candy bar, but the movie we all know and love didn't start out that way, and everyone who made it certainly didn't have the word "classic" in mind as the cameras were rolling. In *Caddyshack: The Making of a Hollywood Cinderella*

Story film critic for Entertainment Weekly Chris Nashawaty goes behind the scenes of the iconic film, chronicling the rise of comedy's greatest deranged minds as they form The National Lampoon, turn the entertainment industry on its head, and ultimately blow up both a golf course and popular culture as we know it. *Caddyshack* is at once an eye-opening narrative about one of the most interesting, surreal, and dramatic film productions there's ever been, and a rich portrait of the biggest, and most revolutionary names in Hollywood. So, it's got that going for it...which is nice.

The Making of Star Wars (Enhanced Edition) May 18 2021 This enhanced eBook transforms *The Making of Star Wars* into an immersive multimedia experience worthy of the original film. It features exclusive content pulled from the Lucasfilm archives by author J. W. Rinzler: • 26 minutes of rare behind-the-scenes video* • 29 minutes of rare audio interviews with the cast and crew • New bonus photos and artwork not found in the print edition After the 1973 success of *American Graffiti*, filmmaker George Lucas made the fateful decision to pursue a longtime dream project: a space fantasy movie unlike any ever produced. Lucas envisioned a swashbuckling SF saga inspired by the *Flash Gordon* serials, classic American westerns, the epic cinema of Japanese auteur Akira Kurosawa, and mythological heroes. Its original title: *The Star Wars*. The rest is history, and how it was made is a story as entertaining and exciting as the movie that has enthralled millions for more than thirty years—a story that has never been told as it was meant to be. Until now. Using his unprecedented access to the Lucasfilm Archives and its trove of “lost” interviews, photos, production notes, factoids, and anecdotes, Star Wars scholar J. W. Rinzler hurtles readers back in time for a one-of-a-kind behind-the-scenes look at the nearly decade-long quest of George Lucas and his key collaborators to make the “little” movie that became a phenomenon. It's all here: • the evolution of the now-classic story and characters—including “Annikin Starkiller” and “a huge green-skinned monster with no nose and large gills” named Han Solo • excerpts from George Lucas's numerous, ever-morphing script drafts • the birth of Industrial Light & Magic, the special-effects company that revolutionized Hollywood filmmaking • the studio-hopping and budget battles that nearly scuttled the entire project • the director's early casting saga, which might have led to a film spoken mostly in Japanese—including the intensive auditions that won the cast members their roles and made them legends • the grueling, nearly catastrophic location shoot in Tunisia and the subsequent breakneck dash at Elstree Studios in London • the who's who of young film rebels who pitched in to help—including Francis Ford Coppola, Steven Spielberg, and Brian DePalma But perhaps most exciting, and rarest of all, are the interviews conducted before and during production and immediately after the release of *Star Wars*—in which George Lucas, Mark Hamill, Harrison Ford, Carrie Fisher, Sir Alec Guinness, Anthony Daniels, composer John Williams, effects masters Dennis Muren, Richard Edlund, and John Dykstra, Phil Tippett, Rick Baker, legendary production designer John Barry, and a host of others share their fascinating tales from the trenches and candid opinions of the film that would ultimately change their lives. No matter how you view the spectrum of this phenomenon, *The Making of Star Wars* stands as a crucial document—rich in fascination and revelation—of a genuine cinematic and cultural touchstone. *Video may not play on all readers.
