Winning Chess Brilliances Sep 18 2021 This book by International Grand Master Yasser Seirawan provides a move-by-move account of the best chess games of the last 25 years, played by the world's foremost chess competitors. With an authoritative voice that is by turns poetic and analytical, Seirawan serves as host of a fascinating excursion of the most brilliant chess game, providing highlights into and explanations of each and every move. Seirawan begins each game with a description of the historical atmosphere of the chess world --and sometimes the world at large--at the time the game was played. When he delves into the game itself, he starts with the reasoning behind the opening moves. From there he provides both a play-by-play description of the game and an analytical commentary, all the while examining the moves in terms of place development and possible tactical and strategic opportunities. Along the way, a handful of the players are profiled in biographies. In *Winning Chess Brilliances* readers will get a taste of the most dazzling chess combinations devious strategies, and downright cruel blows as world champions risk it all! This book is truly a celebration of the sport of chess.

Winning Ugly in Chess Sep 26 2019 When was the last time you won a perfect game? A game that wasn't tainted by inferior moves? Every chess player knows that smooth wins are the exception, that play is often chaotic and positions are frequently irrational. The road to victory is generally full of bumps and misadventures. Welcome to the world of imperfection! Chess books usually feature superbly played games. In *Winning Ugly in Chess* you will see games where weird moves are rewarded. Cyrus Lakdawala knows that playing good chess is all very well, but that beating your opponent is better. He demonstrates the fine art of winning undeserved victories by: -- miraculously surviving chaos -- throwing vile cheapos -- refusing to resign in lost positions -- getting lucky breaks -- provoking unforced errors and other ways to land on your feet after a roller-coaster ride. Lakdawala shows how you can make sure that it is your opponent, not you, who makes the last blunder. If you'd rather win a bad game than lose a good one, then this your ideal guide. The next time 'the wrong player' wins, you will be that player!

Winning Chess Manoeuvres Oct 08 2020 When a chess master finds a winning strategic idea it is seldom by accident. An amateur, staring at a position on the chess board is often fumbling in the dark, his head spinning with a multitude of general rules and vague notions. The master's approach is concrete. He knows how and

where to look, because he has studied the games of other masters. In this book, grandmaster Sarhan Guliev presents a wide range of strategic manoeuvres that have been repeatedly employed by great chess players. He shows how masters generate ideas from the games of other masters: -- positional sacrifices -- amazing counterplay concepts, -- unorthodox exchanges -- winning with g2 - g4 or h2-h4 -- overcoming a blockade -- the advantages of double pawns -- the e5 pawn wedge -- the uses of the queen-bishop battery -- and much more. Winning Chess Manoeuvres is brimming with interesting and instructive stories about the chess greats, and written in an accessible and entertaining style. After studying this book, ambitious chess players will find winning strategic manoeuvres quicker and more often. They will not find them by accident or by relying on general principles, but because they have built up a large stockpile of highly practical ideas.

The Blue Book of Charts to Winning Chess May 15 2021 This is THE book that first introduced a concept that has revolutionized tournament chess for most players. The concept is simply to create a database of chess games, sorted by openings, and then see which opening moves produce the best results. This book concludes that the overall winning percentage for White is 59%. It shows that the moves 1. d4 and 1.c4 win 60% of the time whereas 1.e4 scores only 59%. Regarding the second move, this book shows that against 1. e4, both 1. . . c5 and 1. . . e5 score equally well with 42% for Black, whereas the French Defense 1. . . e6 and the Caro-Kann Defense, 1. . . c6, do much worse, scoring only 38% for the Black side. This book is based on 56,972 games, all compiled and sorted, showing the winning and drawing position for each best move in the chess openings. For example, after the moves of the French Defense, 1. e4 e6 2. d4 d5, it surprisingly shows that the move 3. e5, the Advance Variation, produces the highest winning percentage, as opposed to 3. Nc3 or 3. Nd2.
