[Diverging Tracks](#) Jan 25 2022 The advent of mass railroad travel in the 1800s saw the extension of a system of global transport that developed various national styles of construction, operation, administration, and passenger experiences. Drawing on travel narratives and a broad range of other contemporary sources, this history contrasts the railroad cultures of 19th century England and America, with a focus on the differing social structures and value systems of each nation, and how the railroad fit into the wider industrial landscape.

[Ornament](#) Apr 27 2022 In a wide-ranging and richly illustrated book, the authors begin by tracing the ways ornament has been used over the last five centuries, the rules of decorum and etiquette associated with it, and the social, moral and spiritual values it has represented. They examine how architecture set the agenda for ornament in the Renaissance, and how printed images carried a common vocabulary of ornament throughout the Western world. They survey the personal

side of ornament, both in dress and in the domestic interior - a private expression of the self and a public statement of social and cultural status. They look at ornament in the public domain - from the lavish decoration and symbolism of a town pageant to the logos of today's corporate industry - and show how the ever-evolving role of ornament is to invent and embody the collective spirit of communities at work and at leisure. They conclude by discussing how the Western tradition of ornament has responded to and absorbed 'exotic' African and Asian motifs: Moresque motifs of the Near East and such familiar designs as the 'Paisley' and Willow" patterns.

[The Great Indian Railways](#) Mar 03 2020 Following an experimental railway track at Chintadripet, in 1835, the battle for India's first

railroad was fought bitterly between John Chapman's Great Indian Peninsular Railway and Rowland MacDonal Stephens's East India Railway Company, which was merged with Dwarkanauth Tagore's Great Western of Bengal Railway. Even at the height of the Mutiny of 1857, Bahadur Shah Zafar promised Indian owned railway tracks for native merchants if Badshahi rule was restored in Delhi. From Jules Verne to Rudyard Kipling to Mark Twain to Rabindranath Tagore to Nirad C. Chaudhuri to R.K. Narayan and Ruskin Bond-the aura of Indian trains and railway stations have enchanted many writers and poets. With iconic cinematography from The Apu Trilogy, Aradhana, Sonar Kella, Sholay, Gandhi, Dil Se, Parineeta, Barfi, Gangs of Wasseypur, and numerous others, Indian cinema has paved the way for mythical railroads in the national psyche. The Great Indian Railways takes us on a historic adventure through many junctions of India's hidden railway legends, for the first time in a book replete with anecdotes from imperial politics, European and Indian accounts, the battlefronts of the Indian nationalist movement, Indian cinema, songs, advertisements, and much more, in an ever-expanding cultural biography of the Great Indian Railways. Dubbed as 'one of a kind' this awe-inspiring saga is 'compulsive reading.' 'In this fascinating cultural history, Arup K Chatterjee charts the extraordinary journey of the Indian Railways, from the laying of the very first sleeper to the first post-Independence bogey. It evokes our collective accumulation of those innumerable memories of platform chai and rail-gaadi stories, bringing alive through myriad voices and tales the biography of one of India's defining public institutions.' - Shashi Tharoor, Author, M.P., Lok Sabha 'The Great Indian Railways is a fascinating and well-researched cultural biography of the Indian Railways-those intricate arteries of the soul of India, as have been experienced, written, filmed, and dreamed. We cannot all travel by rail to know India, as Gandhiji did, but we can and should read this book!' - Tabish Khair, Author,

Railway Photographic Advertising in Britain, 1900-1939 Jul 31 2022

This book explores the phenomenal resources dedicated to understanding and encouraging passengers to consume travel from 1900 to 1939, analysing how place and travel were presented for sale. Using the Great Western Railway as a chief case study, as well as a

range of its competitors both on and off the rails, Alexander Medcalf unravels the complex and ever-changing processes behind corporate sales communications. This volume analyses exactly how the company pictured passengers in the countryside, at the seaside, in the urban landscape and in the company's vehicles. This thematic approach brings transport and business history thoroughly in line with tourism and leisure history as well as studies in visual culture.

"Iron, Ornament and Architecture in Victorian Britain " Feb 23 2022

Vilified by leading architectural modernists and Victorian critics alike, mass-produced architectural ornament in iron has received little sustained study since the 1960s; yet it proliferated in Britain in the half century after the building of the Crystal Palace in 1851 - a time when some architects, engineers, manufacturers, and theorists believed that the fusion of iron and ornament would reconcile art and technology and create a new, modern architectural language.

Comprehensively illustrated and richly researched, *Iron, Ornament and Architecture in Victorian Britain* presents the most sustained study to date of the development of mechanised architectural ornament in iron in nineteenth-century architecture, its reception and theorisation by architects, critics and engineers, and the contexts in which it flourished, including industrial buildings, retail and seaside architecture, railway stations, buildings for export and exhibition, and street furniture. Appealing to architects, conservationists, historians and students of nineteenth-century visual culture and the built environment, this book offers new ways of understanding the notion of modernity in Victorian architecture by questioning and re-evaluating both Victorian and modernist understandings of the ideological split between historicism and functionalism, and ornament and structure. *A Dictionary of Heraldry* Dec 24 2021 Explains the meanings of the various heraldic symbols and discusses aspects of the history of heraldry
