The Do Boys Feb 01 2020 A life worth living is lived at the edges where it is wild Early in his memoir, adventurer, mountaineer, writer, filmmaker, and environmentalist Rick Ridgeway faces an existential "fork in the road." "I was twenty-five years old, and somewhere in my reading I had run across a quote from Saint Thomas Aquinas: trust the authority of your instincts," he writes, his gut telling him to choose adventure over convention. What follows is a candid account of the many decision points in his life, from high school, when he pivoted away from family, to the events that led him to become part of The Do Boys, a "group of guys who go around having adventures." "We don't just talk about doing stuff," Rick remembers Yvon Chouinard saying. "We do it." The members of the posse expanded and contracted over the years, as did the activities they pursued, but always at the core were Yvon Chouinard, environmentalist and founder of Patagonia, and Doug Tompkins, environmentalist and founder of The North Face, and Rick. This story of Rick's life crosses continents, from North America to Asia, across South America and Africa, embracing adventures - climbing, surfing, kayaking, trekking - all along the way. It also chronicles Rick's growing love of the natural world, as well as his awareness of human proclivity to exploit it. "We all strive to protect what we love and protecting the beauty of wild nature from our species' aptitude to disfigure it would become a central focus for ...The Do Boys." It would also become the spine of this book, the thread that weaves through the friendships, the loves and the losses of a life lived "doing stuff" in the wildest and most remote corners of our planet. A master storyteller, this long-awaited memoir is the book end to Ridgeway's impressive list of publications, including Seven Summits (Grand Central Publishing, 1988), The Shadow of Kilimanjaro (Holt, 1999),

and The Big Open (National Geographic, 2005).

Happiness Is a Serious Problem Feb 12 2021 In this unique blend of self-help and moral philosophy, perfect for fans of Gretchen Rubin ' s The Happiness Project or Dan Harris ' 10% Happier, talk-radio host Dennis Prager shows us that happiness isn ' t just a value—it ' s a moral obligation. When you ask people about their most cherished values, " happiness " is always at the top of the list. In this enduring happiness manifesto, Prager examines how happiness not only makes us better people, but has an effect on the lives of everyone around us—providing them with a positive environment in which to thrive and be happy themselves. Achieving that happiness won't be easy, though: to Prager, it requires a continuing process of counting your blessings and giving up any expectations that life is supposed to be wonderful. "Can we decide to be satisfied with what we have?" he asks. "A poor man who can make himself satisfied with his portion will be happier than a wealthy man who does not allow himself to be satisfied." Prager echoes other political commentators in complaining that too many people today see themselves as victims; he submits that the only way to achieve your desires is to take responsibility for your life rather than blaming others. If you're willing to put some thought into achieving a happier outlook, you will find plenty to mull over in Happiness Is a Serious Problem.

Auto Repair For Dummies Jul 08 2020 Auto Repair For Dummies, 2nd Edition (9781119543619) was previously published as Auto Repair For Dummies, 2nd Edition (9780764599026). While this version features a new Dummies cover and design, the content is the same as the prior release and should not be considered a new or updated product. The top-selling auto repair guide--400,000 copies sold--now extensively reorganized and updated Forty-eight percent of U.S. households perform at least some automobile maintenance on their own, with women now accounting for one third of this \$34 billion automotive do-it-yourself market. For new or would-be do-it-yourself mechanics, this illustrated how-to guide has long been a must and now it's even better. A complete reorganization now puts relevant repair and maintenance information directly after each automotive system overview, making it much easier to find hands-on fix-it instructions. Author Deanna Sclar has updated systems and repair information throughout, eliminating discussions of carburetors and adding coverage of hybrid and alternative fuel vehicles. She's also revised schedules for tune-ups and oil changes, included driving tips that can save on maintenance and repair costs, and added new advice on troubleshooting problems and determining when to call in a professional mechanic. For anyone who wants to save money on car repairs and maintenance, this book is the place to start. Deanna Sclar (Long Beach, CA), an acclaimed auto repair expert and consumer advocate, has contributed to the Los Angeles Times and has been interviewed on the Today show, NBC Nightly News, and other television programs.
