Plastic Toy Cars of the 1950s and 1960s Jan 22 2022 The history of Dinky Toys, Corgi Toys and other makers of diecast metal cars has been covered in great detail in many books and magazine articles; by contrast, information on plastic toy cars is much harder to come by. Yet

collectors are taking an increasing interest in plastic cars, particularly as the rise in the value of early diecast and tinsplate models has put many of these out of reach of the average enthusiast. For the first time, this book aims to provide a systematic introduction to the vast number of plastic cars made during the 1950s and 1960s. Years of research have enabled the author to uncover many fascinating facts about the companies who made these toys. Some were major players in the toy industry, like Tri-ang and Brimtoy in the UK, Norev and Minialuxe in France, Gama and Siku in Germany and Ingap in Italy. Many others, though, were more obscure, and some only modeled one car before disappearing without trace. More than 250 photographs of these toys are included, with the emphasis being on the most colorful and realistic examples, all of them based on real vehicles of the period. In many cases, the toy is pictured alongside its original box, the presence of which can often double the value of the item to a

collector. Readers will also find a handy glossary listing the names of many of the companies who were active in this field in the 1950s and 1960s, together with some evocative period advertisements and catalogue illustrations. If you thought that a model car had to be made of diecast metal to be worth collecting, this book might change your mind . . . With 250 color photos, extensive appendices and identification aids this is a must have for any collector or dealer.

**Ferrari 458 Buyers Guide** Nov 19 2021 This document, assembled from the lived experience

of Ferrari 458 owners, serves as a comprehensive guide for prospective 458 purchasers. The checklist is inclusive of critical and minor flaws observed among 458s and will assist you in making an informed decision. I want to empower your selection process with knowledge gleaned from my ownership, help you understand price differentials within the marketplace, and raise awareness of maintenance concerns associated with 458s. Although I feel this guide is exhaustive, some items may be missing or difficult to check prior to purchase. This is a living document that will be updated periodically to reflect my experience of ownership and DIY maintenance. All future updates are included with the purchase of this document. It's tempting to save money by using this guide in lieu of a Pre Purchase Inspection (PPI) provided by a professional mechanic. For most older Ferrari purchases, I believe a PPI is critical but on the more modern Ferraris, I've found them to be less

helpful and sometimes a waste of money. Please do your own due diligence and determine what the PPI will include before you agree to have the service done. If you are unsure about whether or not the PPI is worth the money, you can contact me to set up consulting time and I can review the PPI. Finally, do not discount your emotional experience throughout your considerations. It can feel exhilarating to purchase a 458, but that state of mind can interrupt better judgement. This guide can help you maintain objectivity while evaluating a car you have cultivated bias for. Please bear in mind that Ferraris are still just cars, machines that can and will wear and break. However, like any ordinary car, a Ferrari can be thoughtfully maintained to provide many years and miles of use. You should scale your expectations based on your desire for perfection. If you are in search of an immaculate 458, then you'll want to ensure most items on this list are in excellent repair. If you are looking for a driver's car, then your threshold of tolerance for

minor functional or aesthetic flaws may be higher. Bear in mind, lower miles can mean more problems. Cars that have sat unmoved for long periods of time tend to have more issues than those that have been driven and maintained properly. This guide will help expose these issues and let you decide if they are deal-breakers, negotiation points, or simply items to resolve (or even just accept as is) after purchase. People ask me all the time, "Should I buy this Ferrari?" That is a question I cannot answer for you. I can only help inform your decision with knowledge gleaned from my own experience. The decision is ultimately yours to make, but in most cases, I don't think you'll regret it.

**Ferrari** Sep 29 2022 For nearly 60 years, Ferrari has built the sports cars which fire enthusiasts' dreams. This book catalogs the Maranello factory's output: more than 180 designs are illustrated with both artworks and photographs. Organized in chronological order

This is a living document that will be updated periodically to reflect my experience of ownership and DIY maintenance. All future updates are included with the purchase of this document. It's tempting to save money by using this guide in lieu of a Pre Purchase Inspection (PPI) provided by a professional mechanic, but I strongly recommend pursuing a PPI to enhance your

knowledge and confidence during the process of evaluation. Finally, do not discount your emotional experience throughout your considerations. It can feel exhilarating to purchase a F430, but that state of mind can interrupt better judgement. This guide can help you maintain objectivity while evaluating a car you have cultivated bias for. Please bear in mind that Ferraris are still just cars, machines that can and will wear and break. However, like any ordinary car, a Ferrari can be thoughtfully maintained to provide many years and miles of use. You should scale your expectations based on your desire for perfection. If you are in search of an immaculate F430, then you'll want to ensure most items on this list are in excellent repair. Cars that have sat unmoved for long periods of time tend to have more issues than those that have been

driven and maintained properly. Almost all F430s will have some issues given their age at this point in time. This guide will help expose these issues and let you decide if they are deal-breakers, negotiation points, or simply items to resolve (or even just accept as is) after purchase. People ask me all the time, "Should I buy this Ferrari?" That is a question I cannot answer for you. I can only help inform your decision with knowledge gleaned from my own experience. Ferrari 333 SP Jul 24 2019 This book details the origin and racing history of the Ferrari 333 SP. Uniquely, none of the 333 SP models were entered into races by Ferrari itself. The cars were built specifically for customer use; a purchase price of \$900,000 included two spare engines and race technical support supplied by Ferrari engineers. A total of 40 cars were built; the first four by Ferrari, the remainder manufactured by Dallara & Michellotto using Ferrari engines. All of the cars were sold to, and race entries made by, privateer teams. From 1994, the cars contested the IMSA World Sports Car Championship, the United States Road Racing Championship, and the American Le Mans Series, at circuits throughout North America. In 1997, the cars also featured in the

Europe-based International Sports Racing Series, as well as the 24 Hours of Le Mans. Two years later, the Doran-Lista team installed a Judd V10 engine into its 333 SP, with the aim of increasing power and improving fuel efficiency. In all, from the 126 races entered, 47 victories were claimed by the 333 SP.

**Cars I Could've, Should've, Kept** Nov 07 2020 A small business owner and lifelong lover of classic sports cars, Jackson Brooks began in the early 1960s to purchase, restore and enjoy a long succession of rare automotive beauties, many of which are million-dollar commodities in today's market. Not so much a collector as an enthusiast and entrepreneur, he recounts in this well-illustrated memoir how he found and selected the cars, some of which were on the verge of the scrap-heap, the process of restoring them, the challenges he confronted along the way, the ones that got away, and always the

hunt for the next vehicle to spark his imagination. The cars, primarily sporting machines, include 8C-2.3 Alfa Romeos, a Jaguar SS100, three 1953 Ferrari 250MM Barchetta racers (of 13 built), a 1922 Mercedes Targa Florio racer, a Type 57 Bugatti, a 1929 Mercedes SSK (one of 33 built), four Talbot Lagos, and a 1937 Cord 812 Phaeton among many others, with particular concentrations on

Ferrari and Alfa Romeo. Often the sale of one, after restoration and use, financed the purchase of the next, and the text includes the purchase and sale prices as well as approximate present-day market values of the cars. Few people have enjoyed so much hands-on experience with so many of the world's most desirable automobiles. **Sports Car Market magazine - January 2008**
