Alice Walker: Living by the Word Jul 02 2020 'An extraordinarily diverse collection; pure Walker, fresh-eyed and sassy' NEW YORK TIMES Living by the Word is a memorable collection of essays, letters and journal extracts from Pulitzer Prize winner, Alice Walker. In her own immaculate prose, Alice Walker opens an intimate window to her world - whether it be her troubled relationship with her father, her upbringing amidst the poverty of rural Georgia, her daughter Rebecca, or simply her joy in choosing plants for her garden, planning the colours of her home, or relishing the taste of freshly picked vegetables. In other essays she explores themes such as the nature of dreams, justice, folklore and the role of ancestors. She details the story of Dessie Woods who was sent to jail for murdering her would-be rapist and highlights the role of racism and prejudice in the law's treatment of black women. Finally we travel with her on her journey to China, to Bali, and a visit to Nine Miles - the birthplace of the legendary Bob Marley.

Mapping Ideology Apr 23 2022 For a long time, the term 'ideology' was in disrepute, having become associated with such unfashionable notions as fundamental truth and the eternal verities. The tide has turned, and recent years have seen a revival of interest in the questions that ideology poses to social and cultural theory, and to political practice. Mapping Ideology is a comprehensive reader covering the most important contemporary writing on the subject. Including Slavoj Žižek's study of the development of the concept from Marx to the present, assessments of the contributions of Lukács and the Frankfurt School by Terry Eagleton, Peter Dews and Seyla Benhabib, and essays by Adorno, Lacan and Althusser, Mapping Ideology is an invaluable guide to the most dynamic field in cultural theory.

Viral Hate Oct 05 2020 Emboldened by anonymity, individuals and organizations from both left and right are freely spewing hateful vitriol on the Internet without worrying about repercussions. Lies, bullying, conspiracy theories, bigoted and racist rants, and calls for violence targeting the most vulnerable circulate openly on the web. And thanks to the guarantees of the First Amendment and the borderless nature of the Internet, governing bodies are largely helpless to control this massive assault on human dignity and safety. Abe Foxman and Christopher Wolf expose the threat that this unregulated flow of bigotry poses to the world. They explore how social media companies like Facebook and YouTube, as well as search engine giant Google, are struggling to reconcile the demands of business with freedom of speech and the disturbing threat posed by today's purveyors of hate. And they explain the best tools available to citizens, parents, educators, law enforcement officers, and policy makers to protect their twin values of transparency and responsibility. As Foxman and Wolf show, only an aroused and engaged citizenry can stop the hate contagion before it spirals out of control - with potentially disastrous results.

Bible Code II Sep 28 2022 The Bible code-the ancient code encrypted in the Bible that may reveal our future-was made known to the world by investigative reporter Michael Drosnin. Now he reveals startling new predictions warning that we may have only three years to stop the countdown to Armageddon. This dramatic account opens on the morning of September 11, 2001, when Drosnin witnessed the attack on the World Trade Center-and then found the terrible event predicted in detail in the 3,000-year-old Bible code. But according to the code, September 11 was only the beginning. The Bible code says we are already in the "End of Days," the Apocalypse foretold by all three major religions of the West. Drosnin has traveled the globe to meet with world leaders to prevent the impending danger-and to search for the "Code Key," a long-buried ancient object that may completely unlock the Bible code, just in time to save our world.

Molecular Revolution in Brazil Sep 16 2021 Molecular Revolution in Brazil Félix Guattari and Suely Rolnik translated by Karel Clapshaw and Brian Holmes Yes, I believe that there is a multiple people, a people of mutants, a people of potentialities that appears and disappears, that is embodied in social, literary, and musical events.... I think that we're in a period of productivity, proliferation, creation, utterly fabulous revolutions from the viewpoint of this emergence of a people. That's molecular revolution: it isn't a slogan or a program, it's something that I feel, that I live....--from Molecular Revolution in Brazil Following Brazil's first democratic election after two decades of military dictatorship, French philosopher Félix Guattari traveled through Brazil in 1982 with Brazilian psychoanalyst Suely Rolnik and discovered an exciting, new political vitality. In the infancy of its new republic, Brazil was moving against traditional hierarchies of control and totalitarian regimes and founding a revolution of ideas and politics. Molecular Revolution in Brazil documents the conversations, discussions, and debates that arose during the trip, including a dialogue between Guattari and Brazil's future President Luis Ignacia Lula da Silva, then a young gubernatorial candidate. Through these exchanges, Guattari cuts through to the shadowy practices of globalization gone awry and boldly charts a revolution in practice. Assembled and edited by Rolnik, Molecular Revolution in Brazil is organized thematically; aphoristic at times, it presents a lesser-known, more overtly political aspect of Guattari's work. Originally published in Brazil in 1986 as *Micropolítica: Cartografias do desejo*, the book became a crucial reference for political movements in Brazil in the 1980s and 1990s. It now provides English-speaking readers with an invaluable picture of the radical thought and optimism that lies at the root of Lula's Brazil. Félix Guattari (1930-1992), post-'68 French psychoanalyst and philosopher, is the author of *Anti-Oedipus* (with Gilles Deleuze), *The Anti-Oedipus Papers* (Semiotext(e), 2006), and other books. Semiotext(e) has published the first two volumes of his complete essays, *Chaosophy* (1995) and *Soft Subversions* (1996), and will publish the final volume, *Chaos and Complexity*, in 2008. Suely Rolnik is a psychoanalyst, cultural critic, and curator who lives and works in São Paulo, Brazil. She was a close collaborator of Guattari during her exile in Paris from the military dictatorship in Brazil.

The 8th Habit Jun 01 2020 In the 7 Habits series, international bestselling author Stephen R. Covey showed us how to become as effective as it is possible to be. In his long-awaited new book, THE 8th HABIT, he opens up an entirely new dimension of human potential, and shows us how to achieve greatness in any position and any venue. All of us, Covey says, have within us the means for greatness. To tap into it is a matter of finding the right balance of four human attributes: talent, need, conscience and passion. At the nexus of these four attributes is what Covey calls voice - the unique, personal significance we each possess. Covey exhorts us all to move beyond effectiveness into the realm of greatness - and he shows us how to do so, by engaging our strengths and locating our powerful, individual voices. Why do we need this new habit? Because we have entered a new era in human history. The world is a profoundly different place than when THE 7 HABITS OF HIGHLY EFFECTIVE PEOPLE was originally published in 1989. The challenges and complexity we face today are of a different order of magnitude. We enjoy far greater autonomy in all areas of our lives, and along with this freedom comes the expectation that we will manage ourselves, instead of being managed by others. At the same time, we struggle to feel engaged, fulfilled and passionate. Tapping into the higher reaches of human genius and motivation to find our voice requires a new mindset, a new skill-set, a new tool-set - in short, a whole new habit.
