Rei Cretariae Romanae Fautorum: Acta 46 Oct 27 2019 Acta 46 comprises 64 articles. Out of the 120 scheduled lectures and posters presented at the 31st Congress of the *Rei Cretariae Romanae Favtores*, 61 are included in the present volume, to which three further were added. Given the location of the conference in Romania it seems natural that there is a particular focus on the Balkans and Danube.

Numismatics and Greek Lexicography Dec 10 2020 Michael P.

Theophilos explores the fascinating variety of numismatic contributions to Greek lexicography, pertaining to lexicographic studies of the Second Temple period in general, and the New Testament in particular. Theophilos considers previous scholarly attempts to grapple with, and incorporate, critical numismatic material into the emerging discipline of Greek lexicography - including foundational work by F. Preisigke and E. Kiessling - before outlining his own methodological approach. Theophilos' then examines the resources available for engaging with the numismatic material, and presents a series of specific case studies throughout the New Testament material. His carefully annotated images of coins draw readers in to a greater understanding of the material culture of the Greco-Roman world, and how this impacted upon the Greek language and the New Testament.
