James Clear, one of the world's leading experts on habit formation, reveals practical strategies that will teach you exactly how to form good habits, break bad ones, and master the tiny behaviors that lead to remarkable results. If you're having trouble changing your habits, the problem isn't you. The problem is your system. The Men Who Stare at Goats Dec 01 2019 Bizarre military history: In 1979, a crack commando unit was established by the most gifted minds within the U.S. Army. Defying all known laws of physics and accepted military practice, they believed that a soldier could adopt the cloak of invisibility, pass cleanly through walls, and—perhaps most chillingly—kill goats just by staring at them. They were the First Earth Battalion, entrusted with defending America from all known adversaries. And they really weren't joking. What's more, they're back—and they're fighting the War on Terror. An uproarious exploration of American military paranoia: With investigations ranging from the mysterious "Goat Lab," to Uri Geller's covert psychic work with the CIA, to the increasingly bizarre role played by a succession of U.S. presidents, this might just be the funniest, most unsettling book you will ever read—if only because it is all true and is still happening today.

Accelerando Sep 09 2020 The Singularity. It is the era of the posthuman. Artificial intelligences have surpassed the limits of human intellect. Biotechnological beings have rendered people all but extinct. Molecular nanotechnology runs rampant, replicating and reprogramming at will. Contact with extraterrestrial life grows more imminent with each new day. Struggling to survive and thrive in this accelerated world are three generations of the Macx clan: Manfred, an entrepreneur dealing in intelligence amplification technology whose mind is divided between his physical environment and the Internet; his daughter, Amber, on the run from her domineering mother, seeking her fortune in the outer system as an indentured astronaut; and Sirhan, Amber's son, who finds his destiny linked to the fate of all of humanity. For something is systematically dismantling the nine planets of the solar system. Something beyond human comprehension. Something that has no use for biological life in any form...

Do You Know God's Angels? Jan 14 2021 Let us take a journey together through the Bible and get to know God's Angels. Let us gain an understanding of their place in our lives and the lives of all humanity; and then let us take measure of how angels have been portrayed (and are still being portrayed) in television and film. This book is a reference guide. For the most part, it references the bible. However not all angels are named in the Bible, therefore some interpretation of some Bible verses is required. This book will bring together the most relevant passages from the Bible to help us to begin to gain a true understanding of these Divine Beings. The book concludes with a brief exploration of how - during the twentieth and twenty-first centuries - angels have been portrayed on television and in film. You can determine how closely (or otherwise) those portrayals match what the Bible and other scriptures taught us about them. The book concludes with a brief exploration of how - during the twentieth and twenty-first centuries - the media has portrayed angels, and you can determine how closely (or otherwise) those portrayals match what the Bible taught us about them.

The Caregiver's Companion Aug 28 2019 "Being a lay caregiver is no easy task. You are asked to assume the caregiver role with no training, and at best, minimal support from healthcare professionals. Many family caregivers experience feelings of abandonment, of being overwhelmed with worries of uncertainty. They fear they will unintentionally hurt their loved one and struggle with piecing together medical information on their own. Most of the typical responsibilities of life, such as starting a new job, learning to drive a car, applying to a college, starting an exercise regimen, or going through childbirth involve some prior education or orientation. Caregivers have no such benefit of preparation. Without comparable instruction, your responsibility to care for someone ill looms large. Written by a seasoned oncology nurse with personal experience as a caregiver outside of her professional role, the goal of this book is to help family caregivers feel less alone and provide supportive information and practical resources to guide caregivers in their important work"--

Unseen Mar 16 2021 How do we find contentment in God when we feel so hidden? Sara Hagerty unfolds the truths found in the biblical story of Mary of Bethany to discover the scandalous love of God and explore the spiritual richness of being hidden in him. Every heart longs to be seen and understood. Yet most of our lives is unwitnessed. We spend our days working, driving, parenting. We sometimes spend whole seasons feeling unnoticed and unappreciated. In *Unseen*, Sara Hagerty suggests that this is exactly what God intended. He is the only One who truly knows us. He is the only One who understands the value of the unseen in our lives. When this truth seeps into our souls, we realize that only when we hide ourselves in God can we give ourselves to others in true freedom--and know the joy of a deeper relationship with the God who sees us. Our culture applauds what we can produce, what we can show, what we can upload to social media. Only when we give all of ourselves to God--unedited, abandoned, apparently wasteful in its lack of productivity--can we live out who God created us to be. As Hagerty writes, "Maybe my seemingly unproductive, looking-up-at-Him life produces awe among the angels." Through an eloquent exploration of both personal and biblical story, Hagerty calls us to offer every unseen minute of our lives to God. God is in the secret places of our lives that no one else witnesses. But we've not been relegated to these places. We've been invited. We may be "wasting" ourselves in a hidden corner today: The cubicle on the fourth floor. The hospital bedside of an elderly parent. The laundry room. But these are the places God uses to meet us with a radical love. These are the places that produce the kind of unhinged love in us that gives everything at His feet, whether or not anyone else ever proclaims our name, whether or not anyone else ever sees. God's invitation is not just for a season or a day. It is the question of our lives: "When no one else applauds you, when it makes no sense, when you see no results--will you waste your love on Me?"

Drawing on more than twenty years' experience homeschooling and developing curricula, Julie Bogart offers practical tools to help children at every stage of development to grow in their ability to explore the world around them, examine how their loyalties and biases affect their beliefs, and generate fresh insight rather than simply recycling what they've been taught. Visualizing Research Sep 21 2021 Visualizing Research guides postgraduate students in art and design through the development and implementation of a research project, using the metaphor of a 'journey of exploration'. For use with a formal programme of study, from masters to doctoral level, the book derives from the creative relationship between research, practice and teaching in art and design. It extends generic research processes into practice-based approaches more relevant to artists and designers, introducing wherever possible visual, interactive and collaborative methods. The Introduction and Chapter 1 'Planning the Journey' define the concept and value of 'practice-based' formal research, tracking the debate around its development and explaining key concepts and terminology. 'Mapping the Terrain' then describes methods of contextualizing research in art and design (the contextual review, using reference material); 'Locating Your Position' and 'Crossing the Terrain' guide the reader through the stages of identifying an appropriate research question and methodological approach, writing the proposal and managing research information. Methods of evaluation and analysis are explored, and of strategies for reporting and communicating research findings are suggested. Appendices and a glossary are also included. Visualizing Research draws on the experience of researchers in different contexts and includes case studies of real projects. Although written primarily for postgraduate students, research supervisors, managers and academic staff in art and design and related areas, such as architecture and media studies, will find this a valuable research reference. An accompanying website www.visualizingresearch.info includes multimedia and other resources that complement the book.

Circe Dec 13 2020 "A bold and subversive retelling of the goddess's story," this #1 New York Times bestseller is "both epic and intimate in its scope, recasting the most infamous female figure from the Odyssey as a hero in her own right" (Alexandra Alter, *The New York Times*). In the house of Helios, god of the sun and mightiest of the Titans, a daughter is born. But Circe is a strange child -- not powerful, like her father, nor viciously alluring like her mother. Turning to the world of mortals for companionship, she discovers that she does possess power -- the power of witchcraft, which can transform rivals into monsters and menace the gods themselves. Threatened, Zeus banishes her to a deserted island, where she hones her occult craft, tames wild beasts and crosses paths with many of the most famous figures in all of mythology, including the Minotaur, Daedalus and his doomed son Icarus, the murderous Medea, and, of course, wily Odysseus. But there is danger, too, for a woman who stands alone, and Circe unwittingly draws the wrath of both men and gods, ultimately finding herself pitted against one of the most terrifying and vengeful of the Olympians. To protect what she loves most, Circe must summon all her strength and choose, once and for all, whether she belongs with the gods she is born from, or the mortals she has come to love. With unforgettably vivid characters, mesmerizing language, and page-turning suspense, *Circe* is a triumph of storytelling, an intoxicating epic of family rivalry, palace intrigue, love and loss, as well as a celebration of indomitable female strength in a man's world. #1 New York Times Bestseller -- named one of the Best Books of the Year by NPR, the Washington Post, People, Time, Amazon, Entertainment Weekly, Bustle, Newsweek, the A.V. Club, Christian Science Monitor, Refinery 29, Buzzfeed, Paste, Audible, Kirkus, Publishers Weekly, Thrillist, NYPL, Self, Real Simple, Goodreads, Boston Globe, Electric Literature, BookPage, the Guardian, Book Riot, Seattle Times, and Business Insider.
