Will they find a way to believe in a beautiful world?

*Discovering Scarfolk* Jun 15 2021 "Scarfolk is a town in north-west England that did not progress beyond 1979. The entire decade of the 1970s loops ad infinitum. In Scarfolk children must not be seen OR heard, and everyone has to be in bed by 8 p.m. because they are perpetually running a slight fever..." Part-comedy, part-horror, part-satire, *Discovering Scarfolk* is the surreal account of a family trapped in the town. Through public information posters, news reports, books, tourist brochures and other ephemera, we learn about the darker side of childhood, school and society in Scarfolk. A massive cult hit online, *Scarfolk* re-creates with shiver-inducing accuracy and humour our most nightmarish childhood memories. FOR MORE INFORMATION PLEASE RE-READ. *Excavate!* Mar 13 2021 This is a book about Mark E. Smith and The Fall - or more precisely, their ever-influential world. The Fall were so many things, so many worlds; if you got it (and not everyone did), they represented everything. 'To 50,000 Fall Fans: please buy this inspired & inspiring, profound & provocative, beautiful & bonkers Book of Revelations, choc-stock-full of loving Acts by true Apostles, simultaneously both the scrapbook you wished you'd kept and a portal to futures & pasts, known & unknown, & a Fantastic Celebration of this Nation's Saving Grace.' DAVID PEACE 'Mind blowing... brilliant.' TIM BURGESS 'A container sized treasure trove bursting at the hinges with strangeness and wonder . . . I strongly advise you to buy it.' MAXINE PEAKE This is not a book about a rock band. This is not even a book about Mark E Smith. This is a book about The Fall group - or more precisely, their world. Over a prolific forty-year career, the Fall created a world that was influential, idiosyncratic and fiercely original - and defied simple categorisation. Their frontman and lyricist Mark E. Smith spun opaque tales that resisted conventional understanding; the Fall's worldview was an education in its own right. Who wouldn't want to be armed with a working knowledge of M. R. James, shipping-dock procedures, contemporary dance, Manchester City and Can? The group inspired and shaped the lives of those who listened to and tried to make sense of their work. Bringing together previously unseen artwork, rare ephemera and handwritten material, alongside essays by a slate of fans, EXCAVATE! is a vivid, definitive record - an illumination of the dark corners of the Fall's wonderful and frightening world.

*To The Edge* Aug 06 2020 If you are not living on the edge, then you are taking up too much room. Think of the richest square mile in Britain and your thoughts turn to The City of London or Chelsea. It is a place where one-in-twenty houses sells for more than £1 million, 20% of the residents enjoy a seven-figure income and in an index of 'poshness' Alderley Edge scored 136 out of a maximum 137. The media like to focus on the glitz and the glamour, an image of a shallow nouveau riche. But that is not the real story. The entrepreneurial spirit is concentrated in these streets like nowhere else in Britain. These are self-made people, entrepreneurs with amazing stories of triumphs, tribulations, disasters and incredible recoveries. There is another side to Alderley Edge and the 'Golden Triangle', one that the outsider would not necessarily see... PRAISE FOR TO THE EDGE 'Malcolm McClean has an incredible knack for uncovering those small insights which can make a big difference. *On a Method of Multiprogramming* Nov 28 2019 Here, the authors propose a method for the formal development of parallel programs - or multiprograms as they prefer to call them. They accomplish this with a minimum of formal gear, i.e. with the predicate calculus and the well- established theory of Owicki and Gries. They show that the Owicki/Gries theory can be effectively put to work for the formal development of multiprograms, regardless of whether these algorithms are distributed or not.

*Take Back the Tray* Feb 09 2021 A beloved chef takes on institutional food and sparks a revolution Good food generally doesn’t arrive on a tray: hospital food is famously ridiculed, chronic student hunger is deemed a rite of passage, and prison meals are considered part of the punishment. But Chef Joshna Maharaj knows that institutional kitchens have the ability to produce good, nourishing food, because she’s been making it happen over the past 14 years. She’s served meals to people who’d otherwise go hungry, baked fresh scones for maternity ward mothers, and dished out wholesome, scratch-made soups to stressed-out undergrads. She’s determined to bring health, humanity, and hospitality back to institutional food while also building sustainability, supporting the local economy, and reinvigorating the work of frontline staff. Take Back the Tray is part manifesto, part memoir from the trenches, and a blueprint for reclaiming control from corporations and brutal bottom lines. Maharaj reconnects food with health, wellness, education, and rehabilitation in a way that serves people, not just budgets, and proves change is possible with honest, sustained commitment on all levels, from government right down to the person sorting the trash. The need is clear, the time is now, and this revolution is delicious.

**Iris Murdoch** May 15 2021 Iris Murdoch was both a popular and intellectually serious novelist, whose writing life spanned the latter half of the twentieth century. A proudly Anglo-Irish writer who produced twenty-six best-selling novels, she was also a respected philosopher, a theological thinker and an outspoken public intellectual. This thematically based study outlines the overarching themes that characterise her fiction decade by decade, explores her unique role as a British philosopher-novelist, explains the paradoxical nature of her outspoken atheism and highlights the neglected aesthetic aspect of her fiction, which innovatively extended the boundaries of realist fiction. While Iris Murdoch is acknowledged here as a writer who vividly evokes the zeitgeist of the late twentieth century, she is also presented as a figure whose unconventional life and complex presentation of gender and psychology has immense resonance for twenty-first-century readers.

**Nicholas Pashley Two-Book Bundle** Mar 25 2022 We like beer in Canada. We really, really like it. And it's not just a fly-by-night, sordid little affair. We're in it for the long term. We spend something like \$8 billion a year on beer. From barley growers to label designers, more than 170,000 Canadians owe their full-time jobs directly or indirectly to beer. First published in 2001 to national acclaim, *Notes on a Beer* is Nicholas Pashley's ode to the amber nectar of the gods, a witty meditation on beer and everything that goes with it—from socializing to the solitary pleasures of a beer and a book, to the qualities necessary in a good pub. *Notes on a Beer*, the only Canadian book of its kind, explains how to drink beer and why it is absolutely necessary. In *Cheers!*, the follow up to *Notes on a Beer*, Pashley explores beer in Canada, covering many salient points, including: *Frère Ambroise, Who Started It All (Unless He Didn't)*; *Us Against Them: Canadians and Our Neighbours to the South*; *When Canadians Knew Squat: The Stubby in Our Lives*; and much, much more!

**Meat Planet** Jul 17 2021 In 2013, a Dutch scientist unveiled the world's first laboratory-created hamburger. Since then, the idea of producing meat, not from live animals but from carefully cultured tissues, has spread like wildfire through the media. Meanwhile, cultured meat researchers race against population growth and climate change in an effort to make sustainable protein. *Meat Planet* explores the quest to generate meat in the lab—a substance sometimes called “cultured meat”—and asks what it means to imagine that this is the future of food. Neither an advocate nor a critic of cultured meat, Benjamin Aldes Wurgaft spent five years researching the phenomenon. In *Meat Planet*, he reveals how debates about lab-grown meat reach beyond debates about food, examining the links between appetite, growth, and capitalism. Could satiating the growing appetite for meat actually lead to our undoing? Are we simply using one technology to undo the damage caused by another? Like all problems in our food system, the meat problem is not merely a problem of production. It is intrinsically social and political, and it demands that we examine questions of justice and desirable modes of living in a shared and finite world. Benjamin Wurgaft tells a story that could utterly transform the way we think of animals, the way we relate to farmland, the way we use water, and the way we think about population and our fragile ecosystem's capacity to sustain life. He argues that even if cultured meat does not “succeed,” it functions—much like science fiction—as a crucial mirror that we can hold up to our contemporary fleshy dysfunctions.

It shows you how to turn finance from something scary, dull, backward-looking or incomprehensible (sometimes all four!) into a clear, powerful and proactive tool for building businesses. Cash is the lifeblood of every small business - but how do you control it? How do you minimise risk while maximising the potential of your business? What do you need to know about taxes, NI and PAYE? When people start using accountancy-speak, when do you need to listen, and when can you ignore them? What sort of people make the best finance directors for growing businesses? And if you are a finance specialist looking to escape the corporate / professional grind and get involved in enterprise, how do you go about it? Unlike most finance books, *Finance on a Beer* is aimed purely at small and growing businesses. It is accessible, comprehensive and written from many years' experience in the start-up / SME sector.
