Giant Pandas Nov 27 2019 Combines the latest findings from the field and the laboratory with panel and workshop summaries from a recent international conference.

Red Panda Sep 29 2022 *Red Panda: Biology and Conservation of the First Panda, Second Edition*, provides the most up-to-date research, data, and conservation solutions for the red pandas, *Ailurus* species. Since the publication of the previous edition in 2010, the International Union for Conservation of Nature (IUCN) updated the threat level of red pandas, and they are now considered to be endangered. This latest edition is updated to provide an in-depth look at the scientific and conservation-based issues urgently facing the red panda today. Led by one of the world's leading authorities and advocates for red panda conservation, this new edition includes data from the Population and Habitat Viability (PHVA) workshops conducted in three of the species' range states, Nepal, China, and India; these workshops utilized firsthand information on the decrease of red panda populations due to factors including deforestation, illegal pet trade, human population growth, and climate change. This book also includes updated information from the first edition on reproduction, anatomy, veterinary care, zoo management, and fossil history. Discusses the evidence for two species of red panda and how this might impact conservation efforts Reports on status in the wild, looks at

conservation issues and considers the future of this unique species
Written by long-standing red panda experts as well as those
specializing in fields involving cutting-edge red panda research
Includes new chapters on topic including the impact of climate change,
how bamboo influences distribution, and conservation in Bhutan and
Myanmar

Red Panda Oct 31 2022 Red Panda: Biology and Conservation of the First Panda provides a broad-based overview of the biology of the red panda, *Ailurus fulgens*. A carnivore that feeds almost entirely on vegetable material and is colored chestnut red, chocolate brown and cream rather than the expected black and white. This book gathers all the information that is available on the red panda both from the field and captivity as well as from cultural aspects, and attempts to answer that most fundamental of questions, "What is a red panda?" Scientists have long focused on the red panda's controversial taxonomy. Is it in fact an Old World procyonid, a very strange bear or simply a panda? All of these hypotheses are addressed in an attempt to classify a unique species and provide an in-depth look at the scientific and conservation-based issues urgently facing the red panda today. Red Panda not only presents an overview of the current state of our

knowledge about this intriguing species but it is also intended to bring the red panda out of obscurity and into the spotlight of public attention. Wide-ranging account of the red panda (*Ailurus fulgens*) covers all the information that is available on this species both in and ex situ. Discusses the status of the species in the wild, examines how human activities impact on their habitat, and develops projections to translate this in terms of overall panda numbers. Reports on status in the wild, looks at conservation issues and considers the future of this unique species. Includes contributions from long-standing red panda experts as well as those specializing in fields involving cutting-edge red panda research.

IUCN Red List Categories and Criteria Jun 26 2022 The threatened species categories used in Red Data Books and Red Lists have been in place for almost 30 years. The IUCN Red List Categories and Criteria provide an easily and widely understood system for classifying species at high risk of global extinction, so as to focus attention on conservation measures designed to protect them. This latest version of the classification system was adopted by the IUCN Council in February 2001 and reflects comments from the IUCN and SSC memberships and the final meeting of the Criteria Review Working Group.

WILDLIFE BIOLOGY : AN INDIAN PERSPECTIVE Aug 24 2019 his book attempts to cover the whole gamut of wildlife in India portraying its different dimensions and conservation. Comprising thirteen chapters, the book is enriched with principles, theories, methods and tools of wildlife study, latest findings in Indian perspective including supportive data, and photographs of wildlife species in their natural habitat inclusive of colour plates. The chapters on 'Wildlife tools and techniques', 'Special wildlife management programmes' and

'Wildlife legislations and initiatives' will certainly attract special attention of the readers. The students who wish to pursue career in wildlife biology will be benefited with the book as it provides comprehensive understanding of the common field methods in wildlife research. The present text is a pioneer effort of the authors to fulfill the course requirement of undergraduate and postgraduate students of wildlife biology and zoology. The book will be equally valuable for the wildlife conservationists, academicians and those who are actively engaged in wildlife research.

neScholar Magazine Vol 03 Issue 03 Jun 14 2021 North East India first Educational Magazine The current issue has an article on Saturn, brings out the facts of this ringed planet with some beautiful visuals. As all of us are concerned about the impact of development on our biodiversity we bring to you an article on tiger and how it is doing. All along, we have been surviving on the local product from the wild, till farming and then commercial farming is developed. An article on biodiversity and the local economy will make this clearer and how dependent are we on these wild products. The laws that have been promulgated in India for forest conservation and the areas where there are weaknesses is being brought out to bring into forefront the need for strong policy and laws which take into consideration the needs of all stakeholders. The cover story is on the gold burial masks discovered in Manipur accompanied by some stunning photographs. These artefacts housed in the Manipur State Museum need to be further studied to determine not only the age but also the genesis.
